## Abstracts

According to Statistics MRC, the Medical Lifting Sling Market is valued at \$0.35 billion in 2015 and is projected to reach \$0.92 billion by 2022 growing at a CAGR of 14.5% from 2015 to 2022. Increasing incidence of lifestyle diseases, rising geriatric population and huge recovery cost from injuries resulting from manual handling of equipment are driving the market growth. However, persistent difficulty in handling obese patients, lack of skilled training and knowledge to handle patients are some of the factors hindering the market growth.

Transfer sling segment is expected to be the largest segment and fastest growing segment in the forecast period. This growth can be attributed to the multi-purpose usage of the sling. North America is expected to grow at a double-digit CAGR over the forecast period.

Some of the key players in this market include Spectra Care Group, Silvalea Ltd., Joerns Healthcare, LLC, Handicare as, ETAC AB, Guldmann Inc., Prism Medical Ltd., Invacare Corporation, Hill-Rom Holdings, Inc., Getinge Group, ArjoHuntleigh, Argo Medical Inc., Bestcare, LLC, Drive DeVilbiss Healthcare, DJO Global and GF Health Products, Inc.
