Abstracts

According to Statistics MRC, the global Mild Steel Market is accounted for \$XX million in 2016 and expected to grow at a CAGR of XX% to reach \$XX million by 2022. Factors such as global regulation on carbon and environment safety, multispeed regional growth, rise in urbanization and wide range of applications are driving the market growth. However, volatility in the prices of raw materials, low corrosion and oxidation resistance and availability of alternative metals such as Tungsten, Chromium, Nickel, Molybdenum, Manganese, Vanadium, etc are hampering the market growth. Further, a slowing domestic real estate market remains the biggest downside risk for steel.

Europe will be followed by North America and Latin America because of presence of many automobile manufacturers. Asia Pacific will grow significantly due to increasing construction work and demand from end user industries in India and China.

Some of the key players in global Mild Steel market are ArcelorMittal, Baosteel Group, Curtis Steel Company Steel Company, Hansteel Industries Co. Ltd, Kisaan Steels, Metiz LLC, Nippon Steel & Sumitomo Metal Corporation, POSCO, SHAGANG GROUP Inc and The Ansteel Group Corporation.
