Abstracts

According to Statistics MRC, the Global Molded Plastics Market is growing at a CAGR of 4.9% during the forecast period. Growing practice of plastics in the household care products, strong demand from automotive industry and growing demand for plastic components in mobile phones are the key factors fueling the market growth. However, variable prices of crude oil and volatile raw material prices are hampering the molded plastics market. Plastic pipes being used in construction of new oil and gas transmission lines is creating opportunities for vendors in the market. The Asia-Pacific commanded the global molded plastics market in 2012, owing to increasing disposable income of a majority of population in this region.

Some of the key players in the market include Reliance Industries Limited, Huntsman International LLC, Continental Structural Plastics, LyondellBasell Industries NV, BASF, Rexam, NOVA Chemicals, ABC Group, Eastman Chemical Company, Tosoh, SABIC, British Polythene Industries, Chevron Phillips Chemical Company LLC, DuPont and INEOS Group AG.
