Abstracts

According to Statistics MRC, the Global Molded Pulp Packaging market accounted for \$3.35 billion in 2018 and is expected to reach \$5.86 billion by 2027 growing at a CAGR of 6.4% during the forecast period. Growing disposable income, rising demand for reusable packaging and increasing demand from the food packaging industry are driving the market growth. However, stringent government rules and regulations may hinder the market growth.

Molded pulp packaging is the collection of packaging products/solutions made from recycled paperboard or paper material. These products are generally utilized in the packaging of food products or by the food & beverage industry for servicing. These products consist of different variations ranging from cups, trays, plates, bowls and even wholesale product containers.

By Molded Type, Transfer segment is constantly enhancing during forecast period owing to the developing urbanization and increasing consciousness for better packaging. Typical uses of transfer molded products are for packaging electronic equipment, cellular phones and other household and hardware items. Based on geography, Asia Pacific is likely to have a huge demand which is attributed to the presence of a large number of manufacturing units in this region. Moreover, the countries in this region are the major exporters of packaging materials.

Some of the key players profiled in the Molded Pulp Packaging market include Genpak LLC, Thermoformed Engineered Quality LLC, Br?drene Hartmann A/S, Primeware%li%By Primelink Solutions, Eco-Products, Fabri-Kal, UFP Technologies, Pro-Pac Packaging Limited, Huhtamaki OYJ, Pacific Pulp Molding, Henry Molded Products, Protopak Engineering Corporation, Cellulose De La Loire, Sabert

What our report offers:

Market share assessments for the regional and country level segments

Market share analysis of the top industry players

Strategic recommendations for the new entrants

Market forecasts for a minimum of 9 years of all the mentioned segments, sub segments and the regional markets

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the clients interest (Note: Depends of feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
