According to Statistics MRC, the Global Natural Detergent Alcohols Market is accounted for \$6.16 billion in 2020 and is expected to reach \$10.98 billion by 2028 growing at a CAGR of 7.5% during the forecast period. Rising demand of natural oils, easy availability of raw materials for detergent alcohols and increasing stipulation from skin care products are the major factors propelling the market growth. However, volatile prices raw material is hampering the market growth.

Detergent alcohols are the fatty alcohols with the carbon chain length. Natural detergent alcohols are also known as fatty alcohols that are obtained from synthetic alcohol or a number of oils & fats including palm kernel oil, coconut oil, and sesame oil. Natural alcohol detergent cycle converts fatty acids into non-acid intermediate methyl esters and hydrogenates these into alcohols. Methanol vapour passes counter current to fatty acid ensuring that the fatty acids are almost completely converted to methyl esters.

Based on application, the domestic & industrial segment is going to have a lucrative growth during the forecast period owing to their increasing use as non-ionic surfactants in detergents. With increasing investment in commercial as well as residential sector, the growth of natural detergent alcohols market is set to propel. Increasing in environmental and health concerns use of natural based detergent alcohols fuel the market growth. A natural detergent alcohol is also used as a raw material in the manufacture of surfactants for washing & fibre cleaning products and synthetic alcohols used as industrial cleaning agent.

By geography, Asia Pacific is going to have a lucrative growth during the forecast period due to the rising population and growing adoption of natural detergent alcohols for industrial product. Natural detergent alcohols market is boosting personal hygiene

awareness in the region. Increasing demand of washing machine will foster detergents demand and will enhance alcohols industry size. India and China are the key countries with a huge demand for natural detergent alcohols.

Some of the key players profiled in the Natural Detergent Alcohols Market include BASF, Ecogreen Oleochemicals, Emery Olechemicals, Johnson Matthey, Kao Corporation, Kepong Berhad, Kuala Lumpur Ecogreen Oleochemicals, Musim Mas Holdings Pte. Ltd, OLEO International, Procter & Gamble, Royal Dutch Shell plc, SABIC, Sasol Limited, and Wilmar International Ltd.

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025, and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
