## Abstracts

According to Statistics MRC, the Global Orthopedic Support Systems Market is accounted for \$5.0 billion in 2026 and is expected to reach \$9.8 billion by 2034 growing at a CAGR of 8.8% during the forecast period. Orthopedic support systems refer to a wide range of medical devices and solutions designed to provide support, stability, and treatment for musculoskeletal conditions and injuries. These systems aim to alleviate pain, enhance mobility, and promote the overall well-being of individuals with orthopedic issues. Orthopedic supports systems help prevent further damage to musculoskeletal structures. Braces, supports, and orthotic devices can stabilize joints, protect against injuries, and support the healing process.

According to the Federation Internationale de Football Association (FIFA), an ankle sprain is the most common injury sustained by football players globally.

### Market Dynamics:

#### Driver:

Rising prevalence of orthopedic disorders

The growing prevalence of orthopedic disorders is a significant driver of the orthopedic support systems market, accelerating demand. There are several factors contributing to the increasing prevalence of orthopedic disorders. Firstly, the aging population is more prone to these conditions as age-related degeneration and wear-and-tear affect the

musculoskeletal system. As the global population continues to age, the demand for orthopedic support systems rises. Additionally, sedentary lifestyles, lack of physical activity, and poor posture have become prevalent in modern society. These factors contribute to the development of orthopedic problems such as back pain, neck pain, and joint stiffness.

**Restraint:**

## Adverse effects

Orthopedic support systems are designed to enhance mobility and alleviate musculoskeletal issues; some patients may experience discomfort, skin irritations, or allergic reactions to the materials used in these devices. Such adverse effects can lead to decreased patient compliance and satisfaction, impacting the overall effectiveness of orthopedic support systems. Additionally, adverse effects can contribute to negative perceptions among both patients and healthcare providers, influencing decision-making and potentially steering individuals towards alternative treatment options, which hinder market demand.

**Opportunity:**

## Technological advancements

Technological advancements have led to the development of innovative solutions that enhance the comfort, functionality, and effectiveness of orthopedic support systems. Significant technological advancement is the integration of electronics and smart features into orthopedic support systems. These smart systems can monitor and adjust support levels, provide real-time feedback on posture and movement, and even incorporate biofeedback mechanisms for rehabilitation purposes.

**Threat:**

## Alternative treatment modalities

The orthopedic support systems market faces the threat of alternative treatment modalities, where patients may choose non-invasive approaches or alternative therapies over traditional orthopedic support systems. This challenge arises from the diverse range of treatment options available, including physical therapy, medications, and less invasive procedures. However, patients seeking to avoid surgery or reduce

reliance on external support devices may opt for alternatives that offer perceived convenience, lower cost, or fewer associated risks. Therefore, these factors hamper market demand.

### Covid-19 Impact

The COVID-19 pandemic has significantly impacted the orthopedic support systems market. The initial phase of the pandemic led to disruptions in the supply chain, affecting the production and distribution of orthopedic support systems. Furthermore, a shift in healthcare priorities towards managing the pandemic resulted in a temporary decline in elective orthopedic procedures and non-emergency orthopedic support system interventions.

The pediatric segment is expected to be the largest during the forecast period

The pediatric segment is estimated to hold the largest share. In orthopedic support systems, pediatric orthopedic support systems play a crucial role in addressing musculoskeletal issues in children. These specialized systems are designed to provide support, alignment, and treatment for a range of orthopedic conditions affecting the pediatric population. Additionally, pediatric orthopedic support systems encompass a variety of devices, such as braces, splints, and orthotic inserts. These are tailored to the unique anatomical and developmental needs of growing children.

The upper body extremities segment is expected to have the highest CAGR during the forecast period

The upper body extremities segment is anticipated to have lucrative growth during the forecast period. These specialized support systems are designed to provide stability, alleviate pain, and promote optimal function in the upper limbs. Common conditions necessitating upper body extremity support include fractures, dislocations, tendonitis, arthritis, and postoperative rehabilitation. These are crafted with precision to cater to the unique anatomical requirements of each part of the upper body. Shoulder slings are often utilized for immobilization and support after shoulder injuries or surgeries, while arm braces and wrist supports provide stabilization for fractures or conditions like carpal tunnel syndrome.

### **Region with largest share:**

North America commanded the largest market share during the extrapolated period

owing to advanced healthcare infrastructure, high healthcare expenditure, and a growing aging population. The region encompasses the United States and Canada, where an increasing prevalence of musculoskeletal disorders and a robust demand for orthopedic support systems drive market growth. Technological advancements in orthopedic support systems are prominent in North America, with research and development initiatives focusing on innovative solutions such as smart implants and minimally invasive surgical techniques.

### **Region with highest CAGR:**

Asia Pacific is expected to witness profitable growth over the projection period, owing to rising healthcare awareness and evolving healthcare infrastructure. As countries in this region undergo rapid economic development, there is a noticeable increase in the prevalence of musculoskeletal disorders, including conditions related to an aging demographic, and a surge in sports-related injuries. Moreover, technological advancements and the introduction of innovative orthopedic solutions are gaining traction in the Asia-Pacific market.

### **Key players in the market**

Some of the key players in the Orthopedic Support Systems Market include Aspen Medical Products, Alcare Company Ltd, Frank Stubbs Company, Inc, DeRoyal Industries, Inc., 3M Company, Envois, FLA Orthopedics, Inc., BSN medical, medi GmbH & Co. KG, Hely & Weber, Otto Bock Healthcare GmbH, McDavid Knee Guard, Inc., Remington Products Company, Promedics Orthopedics, Trulife, Bird & Cronin, Inc and Zimmer Biomet Holdings, Inc.

### **Key Developments:**

In January 2023, 3M Health Information Systems (HIS) and Edifecs, Inc., a global health information technology solutions company, announced a collaboration to integrate their leading technologies to provide a unique solution for both payers and providers to accelerate the adoptions of value-based payment (VBP) models.

In April 2022, Aspen Medical Products (Aspen), the industry leader in solutions for pain and mobility management and Stimwave Technologies (Stimwave), the manufacturer of the Freedom Spinal Cord Stimulator (SCS) System announced a collaboration to develop an innovative wearable pain management accessory for Stimwave's patients suffering from chronic pain.

Products Covered:

Splint

Braces & Support

Strap

Bandage & Sleeves

Patients Covered:

Adult

Pediatric

Applications Covered:

Upper Body Extremities

Lower Body Extremities

Regions Covered:

North America

US

Canada

Mexico

Europe

Germany

UK

Italy

France

Spain

Rest of Europe

Asia Pacific

Japan

China

India

Australia

New Zealand

South Korea

Rest of Asia Pacific

South America

Argentina

Brazil

Chile

Rest of South America

Middle East & Africa

Saudi Arabia

UAE

Qatar

South Africa

Rest of Middle East & Africa

**What our report offers:**

- Market share assessments for the regional and country-level segments
- Strategic recommendations for the new entrants
- Covers Market data for the years 2023, 2024, 2025, 2026, 2027, 2028, 2030, 2032 and 2034
- Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments
- Supply chain trends mapping the latest technological advancements

**Free Customization Offerings:**

All the customers of this report will be entitled to receive one of the following free customization options:

**Company Profiling**

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

**Regional Segmentation**

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

## Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances

## Contents

### **1 EXECUTIVE SUMMARY**

### **2 PREFACE**

- 2.1 Abstract
- 2.2 Stake Holders
- 2.3 Research Scope
- 2.4 Research Methodology
  - 2.4.1 Data Mining
  - 2.4.2 Data Analysis
  - 2.4.3 Data Validation
  - 2.4.4 Research Approach
- 2.5 Research Sources
  - 2.5.1 Primary Research Sources
  - 2.5.2 Secondary Research Sources
  - 2.5.3 Assumptions

### **3 MARKET TREND ANALYSIS**

- 3.1 Introduction
- 3.2 Drivers
- 3.3 Restraints
- 3.4 Opportunities
- 3.5 Threats
- 3.6 Product Analysis
- 3.7 Application Analysis
- 3.8 Emerging Markets
- 3.9 Impact of Covid-19

### **4 PORTERS FIVE FORCE ANALYSIS**

- 4.1 Bargaining power of suppliers
- 4.2 Bargaining power of buyers
- 4.3 Threat of substitutes
- 4.4 Threat of new entrants
- 4.5 Competitive rivalry

## **5 GLOBAL ORTHOPEDIC SUPPORT SYSTEMS MARKET, BY PRODUCT**

- 5.1 Introduction
- 5.2 Splint
- 5.3 Braces & Support
- 5.4 Strap
- 5.5 Bandage & Sleeves

## **6 GLOBAL ORTHOPEDIC SUPPORT SYSTEMS MARKET, BY PATIENT**

- 6.1 Introduction
- 6.2 Adult
- 6.3 Pediatric

## **7 GLOBAL ORTHOPEDIC SUPPORT SYSTEMS MARKET, BY APPLICATION**

- 7.1 Introduction
- 7.2 Upper Body Extremities
  - 7.2.1 Elbow
  - 7.2.2 Shoulder
  - 7.2.3 Hand and Wrist
  - 7.2.4 Other Upper Body Extremities
- 7.3 Lower Body Extremities
  - 7.3.1 Knee/thigh
  - 7.3.2 Ankle
  - 7.3.3 Foot
  - 7.3.4 Other Lower Body Extremities

## **8 GLOBAL ORTHOPEDIC SUPPORT SYSTEMS MARKET, BY GEOGRAPHY**

- 8.1 Introduction
- 8.2 North America
  - 8.2.1 US
  - 8.2.2 Canada
  - 8.2.3 Mexico
- 8.3 Europe
  - 8.3.1 Germany
  - 8.3.2 UK
  - 8.3.3 Italy

- 8.3.4 France
- 8.3.5 Spain
- 8.3.6 Rest of Europe
- 8.4 Asia Pacific
  - 8.4.1 Japan
  - 8.4.2 China
  - 8.4.3 India
  - 8.4.4 Australia
  - 8.4.5 New Zealand
  - 8.4.6 South Korea
  - 8.4.7 Rest of Asia Pacific
- 8.5 South America
  - 8.5.1 Argentina
  - 8.5.2 Brazil
  - 8.5.3 Chile
  - 8.5.4 Rest of South America
- 8.6 Middle East & Africa
  - 8.6.1 Saudi Arabia
  - 8.6.2 UAE
  - 8.6.3 Qatar
  - 8.6.4 South Africa
  - 8.6.5 Rest of Middle East & Africa

## **9 KEY DEVELOPMENTS**

- 9.1 Agreements, Partnerships, Collaborations and Joint Ventures
- 9.2 Acquisitions & Mergers
- 9.3 New Product Launch
- 9.4 Expansions
- 9.5 Other Key Strategies

## **10 COMPANY PROFILING**

- 10.1 Aspen Medical Products
- 10.2 Alcare Company Ltd
- 10.3 Frank Stubbs Company, Inc
- 10.4 DeRoyal Industries, Inc.
- 10.5 3M Company
- 10.6 Envois

- 10.7 FLA Orthopedics, Inc.
- 10.8 BSN medical
- 10.9 medi GmbH & Co. KG
- 10.10 Hely & Weber
- 10.11 Otto Bock Healthcare GmbH
- 10.12 McDavid Knee Guard, Inc.
- 10.13 Remington Products Company
- 10.14 Promedics Orthopedics
- 10.15 Trulife
- 10.16 Bird & Cronin, Inc
- 10.17 Zimmer Biomet Holdings, Inc.
