Abstracts

According to Statistics MRC, the Global Parking Management market is accounted for \$3.11 billion in 2016 and is expected to reach \$6.91 billion by 2023 growing at a CAGR of 12.1%. Rapid increase in production of vehicles had created concern regarding parking, moreover, in addition to that concern for security, connectivity and safety. Overcrowding of vehicles leading to air & noise pollution and advancement in real-time information regarding parking are the factors energizing the market. However, integration of parking system in society and cost sensitiveness depending on the parking sites are the factors restraining the market.

Corporate and Commercial Parks segment among verticals is accounted for major share in market attributing to demand for efficient parking facilities in order to develop safe and clean facilities across cities. Parking Fee and Revenue Management segment is expected to be the dominant solution in market owing to its application in maximizing the profit by optimizing the space and business demand. North American market is accounted for the largest market share on account of rise in number of vehicles in American market. Moreover, Asia-Pacific market is expected to gain traction due to rising municipalities in developing economies.

Some of the key players of the Parking Management market include 3M Company, Amano Corporation, Cubic Corporation, Data Innovations, Inc., IBM Corporation, Indigo, Inrix, Inc., Integrapark, LLC, Kapsch TrafficCom, Siemens AG, Skidata AG, Swarco Corporation, T2 Systems, TCS International Inc, and Xerox Corporation.
