Abstracts

According to Statistics MRC, the Global PET Packaging Market accounted for \$57.78 billion in 2016 and is expected to reach \$81.52 billion by 2022 growing at a CAGR of 5.9% from 2016 to 2022. Factors such as increasing demand for different-sized packs and growing focus on packaging as a significant tool for brand differentiation are favouring the growth of the PET packaging market. Moreover, growth in sectors such as food, beverage, personal care, and pharmaceutical, and rise in demand of sustainable & recyclable packaging is fueling the market. The emerging economies of Asia Pacific and Latin America hold a great potential for the PET packaging market. Volatility in raw material prices is hampering the PET packaging market.

Bottles & jars are highly chosen due to recyclability, ease and flexibility. PET packaging is ideal in the food industry because it preserves the freshness of food items and extends the shelf life. Asia-Pacific region is expected to grow at a faster pace owing to less labor costs, tremendous industrialization, a vast scope for FDI, and emerging economic conditions.

Some of the key players in the market include Smurfit Kappa Group PLC, Rexam PLC, Resilux NV, Klöckner Pentaplast GmbH & Co. Kg, Huhtamaki Group, GTX Hanex Plastic Sp.Z O.O., Graham Packaging Company, Gerresheimer AG, E. I. Du Pont De Nemours and Company (Dupont), Dunmore, CCL Industries, Inc., Berry Plastics Group Inc. and Amcor Limited.
