Abstracts

According to Statistics MRC, the Global Polyaspartic Coatings Market is accounted for \$313.11 Million in 2017 and is expected to reach \$694.19 Million by 2026 growing at a CAGR of 9.2% from 2017 to 2026. Rising demand from various sectors such as building & construction, industrial, transportation, and power generation is one of the major factors for the market growth. Moreover, growth in industrial and commercial construction will provide opportunities for growth of the market. However, higher cost of these coatings may hamper the market growth..

Polyaspartic coatings display features of high durability and solidity that make them preferable over usually used coatings such as epoxy and polyurethanes. Reduced drying times, bigger film width, long pot life, unscented, low color values, and high unity with most surfaces make them preferable for concrete floor applications. Polyaspartic coatings also offer anticipation next to rust that makes them to fit for insensitive environment applications.

Amongst Type, Hybrid polyurea coating segment held significant market share during the forecast period. Hybrid polyurea coating is a combination of polyamide, polyol, and isocyanate. It provides better durability and high abrasion resistance because it is much thicker and adheres better to metal and concrete structures. By geography, Asia Pacific dominated the market due to rising industrialization and growth of the building & construction sector of the region.

Some of the key players in Polyaspartic Coatings include The Sherwin-Williams Company, Akzonobel, Covestro AG, BASF SE, SIKA AG, PPG Industries, Hempel, Carboline, Laticrete International, Duraamen Engineered Products Inc., Rust-Oleum, Chromaflo Technologies Corporation, Neogard, Flexmar Coatings, Inc. and Polyval

Coatings Inc.

Types Covered:

Hybrid Polyaspartic Coatings

Pure Polyaspartic Coatings

Technologies Covered:

Solvent-Borne

Water-Borne

Powder Coatings

Other Technologies

Systems Covered:

Metallic

Quartz

Channels Covered:

Building & Construction

Transportation

Power Generation

Landscape

Infrastructure

Other End Users

Regions Covered:

What our report offers:

Market share assessments for the regional and country level segments

Market share analysis of the top industry players

Strategic recommendations for the new entrants

Market forecasts for a minimum of 9 years of all the mentioned segments, sub segments and the regional markets

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges,

Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the clients interest (Note: Depends of feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
