Abstracts

According to Statistics MRC, the Global PP Jumbo Bags Market is accounted for \$4.94 billion in 2020 and is expected to reach \$8.60 billion by 2028 growing at a CAGR of 7.2% during the forecast period. The increasing demand for convenient packaging bags for handling and transportation of industrial materials and recycled effectively and further repurposed into plastic applications such as trays, cables, and auto parts are driving the market growth. However, strong competition from rigid packaging products is hampering the growth of the market.

PP jumbo bags are prepared of thick woven polypropylene and are used for storage and transportation of chemicals, food, fertilizers, pharmaceuticals, building & construction, agriculture, and other industrial products. An elastic intermediate bulk container (FIBC), super sack, bulk bag jumbo, or big bag is an industrial container fabricated of flexible fabric that is intended for storing and transporting flowable, dry commodities such as fertilizer, sand, and granules of plastic. PP jumbo bags capacity ranges from 200 kg to 2000 kg. Though, some specialty bags which can hold more than 2000 kg can be manufactured as well.

Based on the bag design, the U-panel bag segment is going to have lucrative growth during the forecast period. The U-panel bags segment is considered to account for more than one-third of the total market, by value. It is associated with their ability to competently transport, pellets, granules, powder, or flake among others. U-panel design permits bags to carry huge products effortlessly

By geography, Asia Pacific is going to have high growth during the forecast period, due to the positive growth of end-use industries such as food, chemical, and agriculture in the region is generating potential opportunities for growth of the market.

Some of the key players profiled in the PP Jumbo Bags Market include AmeriGlobe,

BAG Corp, Berry Global Group, Conitex Sonoco, Emmbi Industries, Greif, Halsted Corporation, Intertape Polymer Group, LC Packaging International and Sackmakers JandHM Dickson.

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025 and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
