Abstracts

According to Statistics MRC, the Global Protein Packaging Market is accounted for \$XX million in 2016 and is expected to reach \$XX million by 2022 growing at a CAGR of XX% from 2016 to 2022. For healthy enthusiasts, protein is a must have dietary supplement which is driving the market. Some of the factors such as growing demand for nourishing food supplements among consumers, rising demand for functional proteins and technological developments in protein packaging industry are the factors anticipated to stimulate the market growth globally. However, rise in concerns regarding protein formulations and huge costs of protein supplements are the restraining factors which are reflecting the market strength.

Flexible packaging is expected to grow at a significant growth rate during the forecast period. North America commanded the largest market share particularly in US due to huge number of North American population engaged with fitness. Moreover, Asia Pacific is anticipated to grow at a very fast rate due to rising demand for dietary supplements in emerging economies such as China and India.
