## **Abstracts**

According to Statistics MRC, the Global Radiology Information Systems (RIS) Market is accounted for \$777.62 million in 2020 and is expected to reach \$1,619.01 million by 2028 growing at a CAGR of 9.6% during the forecast period. Factors such as increased government funding for cancer-related research, advancements in the healthcare industry, and increasing occurrence of chronic diseases are driving the growth of the market. However, lack of specialized healthcare professionals is hampering the growth of the market.

Radiology information system (RIS) is a computer system that provides business analysis and effective workflow for the radiology department. It helps in managing the business functions of the department and is easy to use. It also offers high security as it can be accessed by only authorized users.

Based on the deployment mode, the cloud-based segment is anticipated to expand at a rapid pace during the forecast period owing to its cost-effectiveness, which makes them suitable for small to medium-sized hospitals. By geography, North America is going to have high growth during the forecast period which can be attributed to the increasing prevalence of cancer and the availability of advanced healthcare infrastructure in the region.

Some of the key players profiled in the Radiology Information Systems (RIS) Market include GE Healthcare, Siemens Healthcare , Allscripts Healthcare Solutions Inc ,

Philips Healthcare, McKesson Corporation, Cerner Corporation, Carestream Health Inc, Merge Healthcare Incorporated, Epic Systems Corporation, and Medinformatix Inc.

Types Covered:

Standalone Radiology Information Systems

Integrated Radiology Information Systems

Deployment Modes Covered:

Cloud-Based

Web-Based

On-Premise

Components Covered:

Hardware

Software

Services

End Users Covered:

Hospitals

Diagnostics Labs

Outpatient Department (OPD) Clinics

Ambulatory Surgical Centers

Research & Academic Institutes

Emergency Healthcare Service Providers

Office-Based Physicians

Cath Labs

Radiology Centers

### Regions Covered:

North America

US

Canada

Mexico

Europe

Germany

UK

Italy

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025, and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

#### Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

##### Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

##### Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

##### Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
