Abstracts

According to Statistics MRC, the Global Rail Greases Market is accounted for \$357.25 million in 2020 and is expected to reach \$500.32 million by 2028 growing at a CAGR of 4.3% during the forecast period. Some of the factors such as regular maintenance activities of different parts used in railway transportation and leveraging the e-commerce industry to increase customer reach are propelling the market growth. However, stringent environmental and continuous reforms by governments are hampering market growth.

Grease is a solid or semi-solid lubricant. It usually consists of mineral oil and thickeners such as calcium-based soaps and lithium-based soaps. Greases may also contain additional lubricating particles such as molybdenum disulfide, graphite, or polytetrafluoroethylene (PTFE).

Based on the product type, the lithium grease segment is estimated to have lucrative growth during the forecast period. Lithium grease has excellent resistance to water and breakdown or softening. Lithium greases are utilized in various parts in railways and trains such as curved tooth coupling, cardan shaft, and brake system due to their high pumpability.

By geography, the Asia Pacific holds the largest share in the market due to rapid urbanization and growing investment by the government of emerging countries in the development of railway infrastructure. The countries across the region are

experimenting with state-of-the-art transport technologies to make urban rail systems more efficient, reliable, and passenger-friendly.

Some of the key players profiled in the Rail Greases Market include BP Australia Pty Limited, Chevron Corporation, Exxon Mobil Corporation, Fuchs Petrolub SE, Klüber Lubrication, Petroliam Nasional Berhad (Petronas), Royal Dutch Shell Plc, Sinopec, SKF Group, The Timken Company, Lukoil, China National Petroleum Corporation, Lincoln Industrial, CITGO, and Plews & Edlmann.

Product Types Covered:

Lithium Grease

Calcium Grease

Distribution Channels Covered:

Online

Offline

Applications Covered:

Railway Track Elements

Switches & Fish Plates

Rail Switch Plates and Turnouts

Curve Rails

Screw & Bolts

Railway Vehicle Elements

Regions Covered:

North America

US

Canada

Mexico

Europe

Germany

UK

Italy

France

Spain

Rest of Europe

Asia Pacific

Japan

China

India

Australia

New Zealand

South Korea

Rest of Asia Pacific

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025, and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
