Abstracts

According to Statistics MRC, the Global Seeds Market is accounted for \$59.10 billion in 2020 and is expected to reach \$114.35 billion by 2028 growing at a CAGR of 8.6% during the forecast period. Factors such as rising demand for protein meals, development in the agricultural sector, and growing adoption of biotech crops are driving the growth of the market. However, the impact of climate change on crop production is hampering the growth of the market.

A seed is the ripened fertilized ovule of a flowering plant containing an embryo and is capable of germination to produce a new plant. It is utilized as the basic, central, and vital input in agriculture and all farming systems. Seed serves various functions for the plants such as dispersal to new locations, nourishment of the embryo, and dormancy during unfavorable conditions.

Based on the crop type, the cereals & grains segment is anticipated to expand at a rapid pace during the forecast period owing to the widespread use of grains and cereals as a staple food in many countries of the world. By geography, Asia Pacific is going to have high growth during the forecast period which can be attributed to the supportive regulations by the governments in the region along with an increase in food and feed demand.

Some of the key players profiled in the Seeds Market include BASF SE, Bayer CropScience SE, Syngenta International AG, UPL Limited, FMC Corporation, Sakata Seed, Groupe Limagrain, Corteva Agriscience, DLF Seeds and Science, Barenbrug, KWS SAAT SE & Co. KGaA, East-West Seed International, Land O'Lakes, Inc., Rijk Zwaan Zaadteelt en Zaadhandel B.V., and Takii Seed.

What our report offers:

Market share assessments for the regional and country-level segments

Strategic recommendations for the new entrants

Covers Market data for the years 2019, 2020, 2021, 2025, and 2028

Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)

Strategic recommendations in key business segments based on the market estimations

Competitive landscaping mapping the key common trends

Company profiling with detailed strategies, financials, and recent developments

Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances
