## Abstracts

According to Statistics MRC, the Global Server Storage Area Network Market is accounted for \$8.5 billion in 2024 and is expected to reach \$21.5 billion by 2030 growing at a CAGR of 16.8% during the forecast period. A Server Storage Area Network (SAN) is a high-performance, scalable storage architecture that connects server-based storage resources into a single network. Server SANs use direct-attached storage (DAS) across several servers, pooling and virtualizing storage resources, in contrast to conventional Storage Area Networks (SANs), which depend on dedicated storage arrays. By using software-defined storage (SDS), this method increases scalability, lowers expenses, and improves flexibility. In cloud computing, business data centers, and hyper-converged infrastructure (HCI), server SANs are frequently utilized because they offer fault tolerance, high availability, and effective data management without requiring complicated, specialized storage equipment.

Market Dynamics:

Driver:

Increased Hyper-Converged Infrastructure (HCI) Adoption

The growing usage of Hyper-Converged Infrastructure (HCI) is benefiting the server storage area network (SAN) market by increasing demand for high-performance, scalable, and software-defined storage systems. Because HCI streamlines data administration, boosts productivity, and lowers operating expenses, SANs are more

suited to modern workloads. Higher investments in SAN technologies that enable hybrid and multi-cloud strategies result from HCI's integration with cloud environments, which also promotes more flexibility and better resource usage, eventually speeding up market development and innovation.

Restraint:

#### Complex Deployment & Management

The complexity of implementation and administration in the server storage area network (SAN) industry creates substantial hurdles that impede market growth. Adoption is hampered by high installation costs, complex settings, and the need for specialist knowledge, particularly in small and medium-sized businesses. Implementation is further complicated by ongoing maintenance and scalability issues. Together, these elements impede market growth and reduce the accessibility and allure of SAN solutions for a wider range of users.

Opportunity:

#### High Performance & Low Latency

High performance and low latency improve the market by increasing data transmission speeds, removing bottlenecks, and enhancing task efficiency. Better application performance results from faster reaction times, allowing data-intensive sectors like financial services, cloud computing, and artificial intelligence to run smoothly. Additionally, increased SAN capabilities boost system resilience, scalability, and dependability. These developments increase the competitiveness and value of SAN solutions in contemporary IT infrastructure by promoting greater adoption rates, facilitating real-time analytics, and improving user experience.

Threat:

#### Security & Data Integrity Concerns

Security and data integrity problems have a detrimental influence on the market by raising compliance costs, restricting adoption in sensitive industries, and lowering consumer confidence. Businesses are forced to make significant investments in encryption and security solutions due to frequent ransomware attacks, data breaches, and cyberthreats, which slow market development. Organizations are often reluctant to

fully use SAN solutions due to regulatory obstacles and complicated data protection standards that impede development.

### Covid-19 Impact

The COVID-19 pandemic significantly impacted the Server Storage Area Network (SAN) market in Asia-Pacific. Initially, supply chain disruptions and project delays hindered growth. However, the surge in remote work, cloud computing, and data center expansion fueled demand for SAN solutions. Businesses prioritized data security and scalability, accelerating digital transformation. Post-pandemic recovery and increasing investments in IT infrastructure continue to drive market growth.

The manufacturing segment is expected to be the largest during the forecast period

The manufacturing segment is expected to account for the largest market share during the forecast period, because of the growing need for automation, real-time analytics, and effective data storage. As Industry 4.0 is adopted, firms need reliable SAN solutions to handle digital twins, predictive maintenance, and IoT data. SAN investments are further fueled by the high data output from robots and smart manufacturing. Furthermore, the demand for high-performance, scalable, and secure storage in manufacturing processes propels market expansion, making SAN an essential part of contemporary industrial digital transformation.

The hyperscale server SAN segment is expected to have the highest CAGR during the forecast period

Over the forecast period, the hyperscale server SAN segment is predicted to witness the highest growth rate because of the growing usage of cloud computing, big data analytics, and AI-driven workloads, hyperscale server SAN solutions enable companies to handle massive volumes of data seamlessly. Their software-defined design improves performance and resource use by reducing reliance on conventional storage. Hyperscale installations are crucial for contemporary IT infrastructure since they also improve data redundancy, reduce operating costs, and provide high-speed communication.

Region with largest share:

During the forecast period, the North America region is expected to hold the largest market share as it ensures high-speed connectivity for businesses and improves

scalability. SAN systems facilitate smooth data access, lowering downtime and boosting operational efficiency as cloud computing and AI-driven applications grow in popularity. In order to lessen carbon footprints, the market also encourages energy-efficient storage options. Data protection is further strengthened by developments in security and disaster recovery, which makes SAN an essential part of any company looking for dependable and expandable infrastructure solutions.

#### Region with highest CAGR:

Over the forecast period, the Asia Pacific region is anticipated to exhibit the highest CAGR, owing to growing cloud use, data center spending, and the growth of businesses needing scalable storage solutions. The market is growing as a result of consumer demand for faster data transport, better data security, and effective disaster recovery solutions. Adoption is also being fueled by government programs encouraging digital transformation and smart infrastructure efforts. The demand for reliable SAN solutions is further accelerated by the quick development of IoT, AI, and e-commerce applications.

#### Key players in the market

Some of the key players profiled in the Server Storage Area Network Market include Dell EMC, Hewlett Packard Enterprise (HPE), IBM, NetApp, Hitachi Vantara, Pure Storage, Infinidat, Cisco Systems, Fujitsu, Oracle, Lenovo, Huawei, Western Digital, Seagate Technology, Broadcom Inc, Marvell Technology and ATTO Technology.

#### Key Developments:

In February 2025, Fujitsu announced the launch of a software analysis and visualization service, this service will support enterprise and organizational modernization by investigating and analyzing software, visualizing black-box application structures and characteristics, and generating design documents using generative AI.

In January 2025, Fujitsu Limited and the Resona Group companies Resona Bank, Limited and Saitama Resona Bank announced the launch of a new web service designed to support customers in their home-buying process.

In November 2024, Fujitsu and SAP Pioneer have signed a partnership master agreement to accelerate the digital transformation of Japan's insurance industry.

#### Types Covered:

Hyperscale Server SAN

Enterprise Server SAN

Services Covered:

Professional Services

Managed Services

Applications Covered:

Small Enterprises

Medium-Sized Enterprises

Large Enterprises

End Users Covered:

Information Technology (IT) and Telecommunication

Banking, Financial Services, and Insurance (BFSI)

Manufacturing

Media and Entertainment

Government and Defense

Healthcare and Life Sciences

Other End Users

Regions Covered:

## North America

US

Canada

Mexico

## Europe

Germany

UK

Italy

France

Spain

Rest of Europe

## Asia Pacific

Japan

China

India

Australia

New Zealand

South Korea

Rest of Asia Pacific

## South America

Argentina

Brazil

Chile

Rest of South America

Middle East & Africa

Saudi Arabia

UAE

Qatar

South Africa

Rest of Middle East & Africa

What our report offers:

- Market share assessments for the regional and country-level segments
- Strategic recommendations for the new entrants
- Covers Market data for the years 2022, 2023, 2024, 2026, and 2030
- Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments
- Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

### Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

### Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

### Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances

## Contents

### **1 EXECUTIVE SUMMARY**

### **2 PREFACE**

- 2.1 Abstract
- 2.2 Stake Holders
- 2.3 Research Scope
- 2.4 Research Methodology
  - 2.4.1 Data Mining
  - 2.4.2 Data Analysis
  - 2.4.3 Data Validation
  - 2.4.4 Research Approach
- 2.5 Research Sources
  - 2.5.1 Primary Research Sources
  - 2.5.2 Secondary Research Sources
  - 2.5.3 Assumptions

### **3 MARKET TREND ANALYSIS**

- 3.1 Introduction
- 3.2 Drivers
- 3.3 Restraints
- 3.4 Opportunities
- 3.5 Threats
- 3.6 Application Analysis
- 3.7 End User Analysis
- 3.8 Emerging Markets
- 3.9 Impact of Covid-19

### **4 PORTERS FIVE FORCE ANALYSIS**

- 4.1 Bargaining power of suppliers
- 4.2 Bargaining power of buyers
- 4.3 Threat of substitutes
- 4.4 Threat of new entrants
- 4.5 Competitive rivalry

## **5 GLOBAL SERVER STORAGE AREA NETWORK MARKET, BY TYPE**

- 5.1 Introduction
- 5.2 Hyperscale Server SAN
- 5.3 Enterprise Server SAN

## **6 GLOBAL SERVER STORAGE AREA NETWORK MARKET, BY SERVICE**

- 6.1 Introduction
- 6.2 Professional Services
- 6.3 Managed Services

## **7 GLOBAL SERVER STORAGE AREA NETWORK MARKET, BY APPLICATION**

- 7.1 Introduction
- 7.2 Small Enterprises
- 7.3 Medium-Sized Enterprises
- 7.4 Large Enterprises

## **8 GLOBAL SERVER STORAGE AREA NETWORK MARKET, BY END USER**

- 8.1 Introduction
- 8.2 Information Technology (IT) and Telecommunication
- 8.3 Banking, Financial Services, and Insurance (BFSI)
- 8.4 Manufacturing
- 8.5 Media and Entertainment
- 8.6 Government and Defense
- 8.7 Healthcare and Life Sciences
- 8.8 Other End Users

## **9 GLOBAL SERVER STORAGE AREA NETWORK MARKET, BY GEOGRAPHY**

- 9.1 Introduction
- 9.2 North America
  - 9.2.1 US
  - 9.2.2 Canada
  - 9.2.3 Mexico
- 9.3 Europe
  - 9.3.1 Germany

9.3.2 UK

9.3.3 Italy

9.3.4 France

9.3.5 Spain

9.3.6 Rest of Europe

9.4 Asia Pacific

9.4.1 Japan

9.4.2 China

9.4.3 India

9.4.4 Australia

9.4.5 New Zealand

9.4.6 South Korea

9.4.7 Rest of Asia Pacific

9.5 South America

9.5.1 Argentina

9.5.2 Brazil

9.5.3 Chile

9.5.4 Rest of South America

9.6 Middle East & Africa

9.6.1 Saudi Arabia

9.6.2 UAE

9.6.3 Qatar

9.6.4 South Africa

9.6.5 Rest of Middle East & Africa

## **10 KEY DEVELOPMENTS**

10.1 Agreements, Partnerships, Collaborations and Joint Ventures

10.2 Acquisitions & Mergers

10.3 New Product Launch

10.4 Expansions

10.5 Other Key Strategies

## **11 COMPANY PROFILING**

11.1 Dell EMC

11.2 Hewlett Packard Enterprise (HPE)

11.3 IBM

11.4 NetApp

- 11.5 Hitachi Vantara
- 11.6 Pure Storage
- 11.7 Infinidat
- 11.8 Cisco Systems
- 11.9 Fujitsu
- 11.10 Oracle
- 11.11 Lenovo
- 11.12 Huawei
- 11.13 Western Digital
- 11.14 Seagate Technology
- 11.15 Broadcom Inc
- 11.16 Marvell Technology
- 11.17 ATTO Technology
