Abstracts

According to Statistics MRC, the Global Stand-up Pouches Market is expected to grow from \$22.74 billion in 2016 to reach \$40.65 billion by 2022 with a CAGR of 10.1%. Growing preferences for packaged food and beverages among developing countries, consumer interest towards light weight pouches are some of the factors driving the market growth. However, large space requirement and huge investment in raw materials required for production of stand up pouches are hindering the growth of the market.

Based on the Product Segment, standard stand up pouches leads the market globally and are in huge demand as they are made of high quality materials which empowers the products inside the pouches to remain fresh. This packaging is extensively used in food and beverages. On the other hand, demand for K-style pouches are growing as they are attracting the customers with their different packaging designs and having capacity to hold heavier weight than other pouches. Asia Pacific is dominating the stand up pouches market due to rise in demand for ready-to-eat (RTE) food and beverages, growing demand for convenience and packaged foods.

Some of the key players in Stand-up Pouches Market are Bemis Company Inc., E.I. Du Pont De Nemours and Company, The DOW Chemical Company, Berry Plastics Group Inc., Display Pack Inc., Clondalkin Group Holdings B.V., Westrock Company, Sealed Air Corporation, G. Mondini SPA, Linpac Packaging Limited, Reynolds Flexible Packaging, Innovative Plastics, Tekni-Plex, MTS Medication Technologies, Polyone.
