## Abstracts

According to Statistics MRC, the Global Super Barrier Coated Film Market is accounted for \$1.91 billion in 2024 and is expected to reach \$2.77 billion by 2030 growing at a CAGR of 6.4% during the forecast period. One kind of cutting-edge packaging material called Super Barrier Coated Film (SBCF) is made to offer remarkable barrier qualities against gases, moisture, and outside pollutants. Usually, a thin plastic film is covered with a unique layer that increases the material's resilience to environmental influences. By blocking the entry of oxygen, water, and other dangerous elements, SBCF is frequently used in food, pharmaceutical, and electronics packaging to increase shelf life, maintain product integrity, and retain freshness.

Market Dynamics:

Driver:

Rising consumer preference for sustainable packaging solutions

Eco-friendly alternatives for conventional plastic packaging are becoming more and more popular among consumers. Super barrier coated films are recyclable or biodegradable and provide superior protection. Companies are using these videos to improve their sustainable image and comply with legal obligations. Innovation and investment in cutting-edge coating technologies are increasing as a result of this change. Consequently, the market is expanding significantly on a global scale.

## Restraint:

### Limited raw material availability

The production process is slowed down by supply chain delays brought on by this shortfall. Manufacturers' capacity to satisfy the rising demand for barrier films is further hampered by the decreased availability of essential raw materials. Long-term market investments are also impacted by the uncertainty created by changes in the price of raw materials. Lack of materials might force people to use less high-quality or sustainable substitutes, which could impair the functionality of the final product. In the end, these difficulties may limit the Super Barrier Coated Film industry's ability to innovate and expand its market.

## Opportunity:

### Growth in the food and beverage sector

The Super Barrier Coated films prolong product life by keeping impurities, oxygen, and moisture from compromising quality. Adoption is further accelerated by growing customer desire for packaged, ready-to-eat, and quick goods. Manufacturers are pushed towards sophisticated barrier technologies by strict food safety laws. Packaging that is robust, lightweight, and environmentally friendly is becoming more and more necessary as e-commerce and food delivery services grow. As a result, the market for super barrier coated film grows steadily to meet changing industrial demands.

## Threat:

### Competition from alternative packaging solutions

Concerns about sustainability and plastic waste are making these alternatives more and more popular. Traditional barrier film demand is declining as businesses and consumers move towards environmentally friendly options. Furthermore, alternative materials are more appealing to businesses on a budget since they are frequently less expensive to produce. Competition is further heightened by developments in alternative packaging technologies, such as plant-based or edible films. In order to stay competitive, businesses in the Super Barrier Coated Film Market are compelled by this pressure to innovate, sometimes at great expense.

## Covid-19 Impact

The Covid-19 pandemic significantly impacted the Super Barrier Coated Film market, causing disruptions in supply chains and manufacturing processes. With factories temporarily closing and a slowdown in demand across several industries, production faced setbacks. However, as the demand for packaging, particularly in the food, pharmaceutical, and medical sectors, increased due to safety concerns, the market saw recovery. The growing need for high-quality barrier films for protective packaging drove innovation, while the shift toward e-commerce further boosted demand for durable and secure packaging solutions. The market is expected to stabilize and grow post-pandemic.

The plastic segment is expected to be the largest during the forecast period

The plastic segment is expected to account for the largest market share during the forecast period by offering lightweight, flexible, and cost-effective packaging solutions. Its exceptional resistance to gas, moisture, and UV light prolongs product shelf life and increases demand in the electronics, food, and pharmaceutical sectors. Innovations in recyclable and biodegradable plastic films brought about by increased sustainability initiatives have further accelerated industry expansion. High-performance plastic barrier films are being more widely used as a result of growing e-commerce and consumer preferences for simple packaging. The dominance of the plastic sector in this market is reinforced by ongoing advancements in nanocoatings and multilayer architectures.

The pharmaceuticals segment is expected to have the highest CAGR during the forecast period

Over the forecast period, the pharmaceuticals segment is predicted to witness the highest growth rate by demanding high-performance packaging solutions that ensure product safety and extended shelf life. For the protection of delicate medications and biologics, these coatings provide exceptional resistance to moisture, oxygen, and chemicals. The market is growing even faster due to the growing use of unit-dose forms and blister packaging. Advanced barrier qualities are required by strict regulatory norms, which increase the need for creative coated films. Furthermore, the market's need for dependable, high-barrier packaging materials is growing due to the expansion of pharmaceutical manufacturing and distribution worldwide.

Region with largest share:

During the forecast period, the South America region is expected to hold the largest market share driven by increasing demand for sustainable and high-performance packaging solutions. Industries such as food & beverage, pharmaceuticals, and electronics are adopting these films due to their superior moisture, oxygen, and gas barrier properties. Countries like Brazil and Argentina are key markets, fuelled by rising consumer awareness and stringent regulations on plastic waste. Advancements in biodegradable and recyclable films are further propelling the market. Additionally, expanding e-commerce and processed food sectors are boosting demand.

Region with highest CAGR:

Over the forecast period, the Asia Pacific region is anticipated to exhibit the highest CAGR, owing to increasing demand in food packaging, pharmaceuticals, and electronics. Rising consumer preference for sustainable and high-barrier packaging solutions is driving market expansion. Countries like China, India, and Japan are key players, benefiting from strong manufacturing bases and technological advancements. The adoption of eco-friendly and recyclable films is gaining traction, supported by government initiatives promoting sustainability. The growing e-commerce sector is further boosting demand for high-performance packaging solutions. Major companies are investing in R&D to enhance film properties, ensuring durability and extended shelf life for packaged goods.

Key players in the market

Some of the key players profiled in the Super Barrier Coated Film Market include Amcor Limited, Mitsubishi Chemical Corporation, Uflex Limited, Dow Inc., Sealed Air Corporation, Bemis Company, Inc., Toyobo Co., Ltd., Toray Industries, Inc., Wipac Walsrode GmbH & Co. KG, Saudi Basic Industries Corporation (SABIC), Jindal Poly Films Ltd., DuPont Teijin Films, BASF SE, 3M Company, Vibac Group S.p.A., Kraton Polymers and Inovia Films Ltd.

Key Developments:

In November 2024, Amcor announced a definitive merger agreement with Berry Global Group, Inc., valued at approximately \$8.4 billion. This all-stock transaction aims to create a global leader in consumer and healthcare packaging solutions, enhancing Amcor's capabilities in flexible films, containers, and closures.

In November 2024, Amcor introduced 'Amcor Lift-Off Sprints,' an open-call initiative

designed to foster technical collaborations with startups addressing specific R&D challenges. This initiative aims to accelerate the development of sustainable packaging solutions, potentially impacting the Super Barrier Coated Film market by introducing innovative technologies and materials.

#### Material Types Covered:

Plastic

Polyethylene (PE)

Polypropylene (PP)

Polyamide (PA)

Polyvinylidene Chloride (PVDC)

Polyethylene Terephthalate (PET)

Oxides

Aluminum

Other Material Types

#### Thicknesses Covered:

Less than 20 microns

21 to 60 microns

60 microns and above

#### Weights Covered:

Less than 120 GSM

150 GSM

180 GSM

More than 180 GSM

End Users Covered:

Food and Beverage

Pharmaceuticals

Personal Care and Cosmetics

Electronics

Automotive

Probiotics

Other End Users

Regions Covered:

North America

US

Canada

Mexico

Europe

Germany

UK

Italy

France

Spain

Rest of Europe

Asia Pacific

Japan

China

India

Australia

New Zealand

South Korea

Rest of Asia Pacific

South America

Argentina

Brazil

Chile

Rest of South America

Middle East & Africa

Saudi Arabia

UAE

Qatar

South Africa

Rest of Middle East & Africa

What our report offers:

- Market share assessments for the regional and country-level segments
- Strategic recommendations for the new entrants
- Covers Market data for the years 2022, 2023, 2024, 2026, and 2030
- Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments
- Supply chain trends mapping the latest technological advancements

Free Customization Offerings:

All the customers of this report will be entitled to receive one of the following free customization options:

#### Company Profiling

Comprehensive profiling of additional market players (up to 3)

SWOT Analysis of key players (up to 3)

#### Regional Segmentation

Market estimations, Forecasts and CAGR of any prominent country as per the client's interest (Note: Depends on feasibility check)

#### Competitive Benchmarking

Benchmarking of key players based on product portfolio, geographical presence, and strategic alliances

## Contents

### **1 EXECUTIVE SUMMARY**

### **2 PREFACE**

- 2.1 Abstract
- 2.2 Stake Holders
- 2.3 Research Scope
- 2.4 Research Methodology
  - 2.4.1 Data Mining
  - 2.4.2 Data Analysis
  - 2.4.3 Data Validation
  - 2.4.4 Research Approach
- 2.5 Research Sources
  - 2.5.1 Primary Research Sources
  - 2.5.2 Secondary Research Sources
  - 2.5.3 Assumptions

### **3 MARKET TREND ANALYSIS**

- 3.1 Introduction
- 3.2 Drivers
- 3.3 Restraints
- 3.4 Opportunities
- 3.5 Threats
- 3.6 End User Analysis
- 3.7 Emerging Markets
- 3.8 Impact of Covid-19

### **4 PORTERS FIVE FORCE ANALYSIS**

- 4.1 Bargaining power of suppliers
- 4.2 Bargaining power of buyers
- 4.3 Threat of substitutes
- 4.4 Threat of new entrants
- 4.5 Competitive rivalry

### **5 GLOBAL SUPER BARRIER COATED FILM MARKET, BY MATERIAL TYPE**

- 5.1 Introduction
- 5.2 Plastic
- 5.3 Polyethylene (PE)
- 5.4 Polypropylene (PP)
- 5.5 Polyamide (PA)
- 5.6 Polyvinylidene Chloride (PVDC)
- 5.7 Polyethylene Terephthalate (PET)
- 5.8 Oxides
- 5.9 Aluminum
- 5.10 Other Material Types

## **6 GLOBAL SUPER BARRIER COATED FILM MARKET, BY THICKNESS**

- 6.1 Introduction
- 6.2 Less than 20 microns
- 6.3 21 to 60 microns
- 6.4 60 microns and above

## **7 GLOBAL SUPER BARRIER COATED FILM MARKET, BY WEIGHT**

- 7.1 Introduction
- 7.2 Less than 120 GSM
- 7.3 150 GSM
- 7.4 180 GSM
- 7.5 More than 180 GSM

## **8 GLOBAL SUPER BARRIER COATED FILM MARKET, BY END USER**

- 8.1 Introduction
- 8.2 Food and Beverage
- 8.3 Pharmaceuticals
- 8.4 Personal Care and Cosmetics
- 8.5 Electronics
- 8.6 Automotive
- 8.7 Probiotics
- 8.8 Other End Users

## **9 GLOBAL SUPER BARRIER COATED FILM MARKET, BY GEOGRAPHY**

- 9.1 Introduction
- 9.2 North America
  - 9.2.1 US
  - 9.2.2 Canada
  - 9.2.3 Mexico
- 9.3 Europe
  - 9.3.1 Germany
  - 9.3.2 UK
  - 9.3.3 Italy
  - 9.3.4 France
  - 9.3.5 Spain
  - 9.3.6 Rest of Europe
- 9.4 Asia Pacific
  - 9.4.1 Japan
  - 9.4.2 China
  - 9.4.3 India
  - 9.4.4 Australia
  - 9.4.5 New Zealand
  - 9.4.6 South Korea
  - 9.4.7 Rest of Asia Pacific
- 9.5 South America
  - 9.5.1 Argentina
  - 9.5.2 Brazil
  - 9.5.3 Chile
  - 9.5.4 Rest of South America
- 9.6 Middle East & Africa
  - 9.6.1 Saudi Arabia
  - 9.6.2 UAE
  - 9.6.3 Qatar
  - 9.6.4 South Africa
  - 9.6.5 Rest of Middle East & Africa

## **10 KEY DEVELOPMENTS**

- 10.1 Agreements, Partnerships, Collaborations and Joint Ventures
- 10.2 Acquisitions & Mergers
- 10.3 New Product Launch
- 10.4 Expansions

## 10.5 Other Key Strategies

# 11 COMPANY PROFILING

- 11.1 Amcor Limited
- 11.2 Mitsubishi Chemical Corporation
- 11.3 Uflex Limited
- 11.4 Dow Inc.
- 11.5 Sealed Air Corporation
- 11.6 Bemis Company, Inc.
- 11.7 Toyobo Co., Ltd.
- 11.8 Toray Industries, Inc.
- 11.9 Wipak Walsrode GmbH & Co. KG
- 11.10 Saudi Basic Industries Corporation (SABIC)
- 11.11 Jindal Poly Films Ltd.
- 11.12 DuPont Teijin Films
- 11.13 BASF SE
- 11.14 3M Company
- 11.15 Vibac Group S.p.A.
- 11.16 Kraton Polymers
- 11.17 Innovia Films Ltd.

## List Of Tables

### LIST OF TABLES

- 1 Global Super Barrier Coated Film Market Outlook, By Region (2022-2030) (\$MN)
- 2 Global Super Barrier Coated Film Market Outlook, By Material Type (2022-2030) (\$MN)
- 3 Global Super Barrier Coated Film Market Outlook, By Plastic (2022-2030) (\$MN)
- 4 Global Super Barrier Coated Film Market Outlook, By Polyethylene (PE) (2022-2030) (\$MN)
- 5 Global Super Barrier Coated Film Market Outlook, By Polypropylene (PP) (2022-2030) (\$MN)
- 6 Global Super Barrier Coated Film Market Outlook, By Polyamide (PA) (2022-2030) (\$MN)
- 7 Global Super Barrier Coated Film Market Outlook, By Polyvinylidene Chloride (PVDC) (2022-2030) (\$MN)
- 8 Global Super Barrier Coated Film Market Outlook, By Polyethylene Terephthalate (PET) (2022-2030) (\$MN)
- 9 Global Super Barrier Coated Film Market Outlook, By Oxides (2022-2030) (\$MN)
- 10 Global Super Barrier Coated Film Market Outlook, By Aluminum (2022-2030) (\$MN)
- 11 Global Super Barrier Coated Film Market Outlook, By Other Material Types (2022-2030) (\$MN)
- 12 Global Super Barrier Coated Film Market Outlook, By Thickness (2022-2030) (\$MN)
- 13 Global Super Barrier Coated Film Market Outlook, By Less than 20 microns (2022-2030) (\$MN)
- 14 Global Super Barrier Coated Film Market Outlook, By 21 to 60 microns (2022-2030) (\$MN)
- 15 Global Super Barrier Coated Film Market Outlook, By 60 microns and above (2022-2030) (\$MN)
- 16 Global Super Barrier Coated Film Market Outlook, By Weight (2022-2030) (\$MN)
- 17 Global Super Barrier Coated Film Market Outlook, By Less than 120 GSM (2022-2030) (\$MN)
- 18 Global Super Barrier Coated Film Market Outlook, By 150 GSM (2022-2030) (\$MN)
- 19 Global Super Barrier Coated Film Market Outlook, By 180 GSM (2022-2030) (\$MN)
- 20 Global Super Barrier Coated Film Market Outlook, By More than 180 GSM (2022-2030) (\$MN)
- 21 Global Super Barrier Coated Film Market Outlook, By End User (2022-2030) (\$MN)
- 22 Global Super Barrier Coated Film Market Outlook, By Food and Beverage (2022-2030) (\$MN)

- 23 Global Super Barrier Coated Film Market Outlook, By Pharmaceuticals (2022-2030) (\$MN)
- 24 Global Super Barrier Coated Film Market Outlook, By Personal Care and Cosmetics (2022-2030) (\$MN)
- 25 Global Super Barrier Coated Film Market Outlook, By Electronics (2022-2030) (\$MN)
- 26 Global Super Barrier Coated Film Market Outlook, By Automotive (2022-2030) (\$MN)
- 27 Global Super Barrier Coated Film Market Outlook, By Probiotics (2022-2030) (\$MN)
- 28 Global Super Barrier Coated Film Market Outlook, By Other End Users (2022-2030) (\$MN)

Note: Tables for North America, Europe, APAC, South America, and Middle East & Africa Regions are also represented in the same manner as above.
