According to Statistics MRC, the Global Tipper Trucks Market is accounted for \$37.22 million in 2016 and is expected to reach \$78.35 million by 2023 growing at a CAGR of 11.2% during the forecast period. Rapid urbanization coupled with increasing infrastructure activities in emerging economies, recent technological developments in tipper trucks manufacturing, and raising logistic services around the globe are some of the factors bolstering the market growth.
