## Abstracts

According to Statistics MRC, the Global Vitamin D Testing Market is expected to grow at a CAGR of 6.2% during the forecast period. Rising aging population and growing number of vitamin D deficiency diseases are some of the key factors favouring the market growth. However, growing price burden on patients is hampering the market. North America commanded the largest market share due to the higher healthcare expenditure as compared to other developing countries. Asia Pacific is anticipated to grow at the fastest CAGR due to increasing funds by several market vendors in the region.

Some of the key players in Vitamin D Testing market include F. Hoffmann-La Roche Ltd., Abbott Diagnostics, Vitamin D Company, Siemens Healthcare Diagnostics, Biomeriux Diasorin, Roche Diagnostics, Diazyme Laboratories, Danaher Corporation, Quest Diagnostics, Tosoh Bioscience, DiaSorin S.p.A., Qualigen and Biokit.
