Abstracts

According to Statistics MRC, the Global Wicketed Bags Market is accounted for \$751.91 million in 2020 and is expected to reach \$1,216.64 million by 2028 growing at a CAGR of 6.2% during the forecast period. Some of the factors such as increasing demand for convenience and processed food and rising demand for flexible packaging are propelling the market growth. However, the high cost of wicketed bags and strict rules and regulations related to the use of plastic are hampering the market growth.

Wicketed bags are held together on a wicket. The wicket makes it simple to dispense bags and package different items. The bags improve the aesthetic appeal of a product and can augment product dispensing, along with durable packaging. Wicketed bags are mainly used in many end-use industries due to their properties such as high tear resistance, transparency, eco-friendly, and durability.

Based on the type, the bottom gusset segment holds the largest share in the market during the forecast period. Bottom-gusset bags are designed to contain larger and three-dimensional-shaped products. Moreover, a wicketed bag with a bottom gusset is made of polyethylene. It is very transparent and glossy owing to the use of special polymers.

By geography, the Asia Pacific holds the largest share in the market during the forecast period due to the rising demand for food and personal hygiene products in nations, such as India and China. Moreover, rising disposable income levels of the population and substantial economic conditions are encouraging a consumer to spend more on

consumer products, which is expected to drive the demand for wicketed bags across the region.

Some of the key players profiled in the Wicketed Bags Market include A-Pac Manufacturing, Berry Global Group Inc, Bischof + Klein, Coveris Holdings S.A., International Plastics, KG Marketing and Bag, LPS Industries Inc, Maco PKG, Mondi Plc, PAC Worldwide Corporation, Richmond Plastics, Rutan Poly Industries, Sonoco Products Company, St. John Packaging, Supreme Plastics Group, Uflex Ltd, Welton Bibby and Baron, and WrapEx Ltd.
