Abstracts

According to Statistics MRC, the Global Wind Power market is accounted for \$185.47 billion in 2015 and is expected to reach \$310.54 billion by 2022 growing at a CAGR of 7.6%. The wind power generation is estimated to drive the market over next decade due to increase in renewable energy. Nations across the globe are supporting the renewable energy including wind power, solar power, biomass, hydro power, to reduce the carbon emissions. Wind power's growth is increasingly driven by its competitive pricing, because it enhances energy security and price stability.

Among the applications, commercial segment accounted for the largest market share owing to the rising awareness of people about green and clean energy. Moreover, Europe accounted for the largest market share on account of rising government regulations for the clean eco-friendly energy, whereas, Asia Pacific is expected to be the fastest growing region due to china, which has been the main driver for the growth in industry.

Some of the key players of the Wind Power market include Alstom Wind, S.L.U., Cs Wind Corp.,
