## Abstracts

The Global Yeast market is estimated at \$2.67 billion in 2014 and is projected to reach \$5.62 billion by 2022, growing at a CAGR of 9.7% from 2014 to 2022. Growing demand for bakery stuff and total demand for bio-ethanol are the major factors driving the market growth. A food security regulation for the use of yeast extract products is inhibiting the market growth. Substitute molasses with various raw materials is the key opportunity for the market.

The baker's yeast segment commanded the majority share followed by the brewer's yeast segment. Europe dominated the global baker's yeast market followed by North America. The demand for baker's yeast is driven by the raise in demand for high worth baked goods such as cookies and cakes which are advertised globally. However, this market is witnessing certain growth barriers, such as increasing competition for the procurement of essential raw material.

The key players in the market include Chr. Hansen, Angel Yeast, Kerry Group, Danish Yeast, Alltech, Suboneyo Chemicals Pharmaceuticals, DSM N.V., Cargill, Biorigin and Minn-Dark Yeast.
