Abstracts

This report, from Stratview Research, studies the global aerospace galley trolley market over the period 2010 to 2021. The report provides detailed insights on the market dynamics to enable informed business decision making and growth strategy formulation based on the opportunities present in the market.

The Global Aerospace Galley Trolley Market: Highlights

Aircraft galley trolley is an important equipment in an aircraft cabin interior. Both the airlines as well as the galley trolley manufacturers believe that galley and galley trolley can have a direct or indirect impact on a passenger's flight experience. A technically poor and unhygienic trolley can make a passenger's experience unpleasant. On the other hand, the indirect passenger experience is driven by the level of satisfaction of the flight crew as a consequence of their experience with their equipment, such as galley trolley.

The global aerospace galley trolley market offers a healthy growth opportunity and is

likely to grow at a 5.6% CGAR during the forecast period of 2016 to 2021. Increasing commercial aircraft deliveries and growing aircraft fleet size are the key driving forces shaping the global galley trolley market. Both line fit as well as retrofit segments are likely to offer a healthy opportunity in the next five years. Wide body aircraft segment is expected to remain the growth engine of the global aerospace galley trolley market during the forecast period.

The supply chain of this market comprises raw material manufacturers, galley trolley manufacturers, aircraft OEMs, and airlines. The key aerospace OEMs are Boeing, Airbus, Bombardier, Embraer, ATR, and Mitsubishi Heavy Industries and key airlines are Lufthansa, Delta Air, Air China, and Singapore Airlines.

The key galley trolley manufacturers are Zodiac Aerospace, Jamco Corporation, Diethelm Keller Aviation, Flightweight, Korita Aviation, and Norduyn. New product development, regional expansion, and long term contracts are the key strategies adopted by the key players to gain competitive edge in the market. All players are investing heavily on the development of lightweight trolleys and advancement in trolley technology.

Research Methodology

This report offers high quality insights and is the outcome of detailed research methodology comprising extensive secondary research, rigorous primary interviews with industry stakeholders and validation and triangulation with Stratview Research's internal database and statistical tools. More than 400 authenticated secondary sources, such as company annual reports, fact book, press release, journals, investor presentation, white papers, patents, and articles have been leveraged to gather the data. More than 12 detailed primary interviews with the market players across the value chain in the all four regions and industry experts have been executed to obtain both the qualitative and quantitative insights.

Report Features

This report provides market intelligence in the most comprehensive way. The report structure has been kept such that it offers maximum business value. It provides critical insights on the market dynamics and will enable strategic decision making for the existing market players as well as those willing to enter the market. The following are the key features of the report:

Market structure: Overview, industry life cycle analysis, supply chain analysis

Market environment analysis: Growth drivers and constraints, Porter's five forces analysis, SWOT analysis

Market trend and forecast analysis

Market segment trend and forecast

Competitive landscape and dynamics: Market share, product portfolio, product launches, etc.

Attractive market segments and associated growth opportunities

Emerging trends

Strategic growth opportunities for the existing and new players

Key success factors

The aerospace galley trolley market is segmented into the following categories.

Global Aerospace Galley Trolley Market by Aircraft Type:

Report Customization Options

With this detailed report, Stratview Research offers one of the following free customization options to our respectable clients:

Regional Segmentation

Current market segmentation of any one of the regions by trolley type

Benchmarking of Key Competitors

Benchmarking of key players on the following parameters: Product portfolio, geographical reach, regional presence, and strategic alliances

Company Profiling

Detailed profiling of additional market players (upto 3)

SWOT analysis of key players (upto 3)
