Abstracts

Summary

Pharmacy Trusteeship refers to that public hospitals outsource the Pharmacy business to outside pharmacy companies, which adopt non-free management model. The mode is greatly popularized in Nanjing, Jiangsu.

As Pharmacy trusteeship only changes the operation right, and no increase for the government investment, the proportion of hospitals' drug sales income is still very large, and the "Gray channel" of prescription and drug sales also exist.

To branded drug manufacturers, due to the increasing cost and pursuit for profit, the trusteeship companies are forced to introduce generic drugs instead of low-profit name brand drugs. Therefore, brand drug manufacturers should adjust their marketing mode in multi-aspects to deal with the problem.
