Abstracts

With the increasing threat of depression to human health, the fight against depression is becoming a major global concern, brewing unlimited business opportunities. At present, the overall size of antidepressant market in China is still quite small but as mental diseases are on the rise and China is about to enter an aging society, antidepressant drugs are faced with a considerable market potential. This report makes a statistic survey of the antidepressant market on the basis of introduction to the classification of antidepressants, and then it makes an analysis of the present market situation of antidepressants.

Contents
