Abstracts

Executive Summary

China die and mould industry develops rapidly in recent years. In the aspect of industry scale, China die and mould ranks the third place in the world, after Japan and U.S., but the number of employees in this industry ranks the first globally. The trade deficit of die and mould product is declining, and is expected to become surplus in 2009. The Chinese die and mould manufacturers will stress on R&D and special products. The technology level will improve continuously, and products develop towards the direction of larger size, greater precisions, more complexity and longer life span.

Contents
