About the Report

The Australian Data Centre market has undergone consolidation with Equinix acquiring Metronode, with 1ten facilities in Australia and MacQuarie also acquiring the majority of AirTrunk. The report reveals that new space is being added by a number of DCs including AirTrunk, NEXTDC, CDC and Digital Realty in Sydney, Canberra, Melbourne and Perth. There are a total of 66 facilities in Australia. Cloud availability zones are provided by all of the major Cloud Service Providers.

The Australian Country Market report is split into five sections

Section One: The Data Centre Landscape in Australia – surveys international sub-sea fibre connectivity, domestic fibre connectivity including Dark Fibre connectivity and power availability.

Section Two: Country Survey of the Cloud in Australia

Section Three: Country Survey of Data Centres in Australia

Section Four: Profiles of the key Cloud and Data Centre Providers in Australia

Section Five: Forecasts and Conclusions – includes Forecasts for the public cloud markets (by annual revenues in millions of USD from the beginning of 2021 to the beginning of 2025), and for Data Centre (using the metrics of annual revenues, Data Centre raised floor space and Data Centre Customer Power (DCCP) from the beginning of 2021 to the beginning of 2025). Finally, DCP identifies the key trends and the key conclusions to the report.
