About the Report

This new report considers the growth of space, power, pricing for Morocco. The report forms part of the Emerging Market report covering also Brazil, China, India, Indonesia, Mexico, Morocco, Russia, South Africa, and Vietnam.

The report shows the revenues for Cloud and Data Centre Market forecast over the period from the beginning of 2021 to the beginning of 2025 and provides profiles of the key Public Cloud and Data Centre providers for Turkey.

About Turkey

The key domestic fibre providers in Turkey include Turk Telekom, Turkcell, Turksat and Vodafone and Turkey is connected via three key international subsea cable systems.

As yet none of the Global CSPs have established a cloud availability zone in Turkey cloud services are provided by local provider.

There are over 40 Data Centre Providers with over 50 Data Centre Facilities. One of the latest announcement in the space of Turkey was in December 2020, that Turkey will fund a new data center for the Turkish Republic of Northern Cyprus to help bring more government services online.

Contents

Section 1 – A definition of a Cloud & Emerging Data Centre market – provides a definition of an Emerging Market and compares the key similarities between the 10 Data Centre markets profiled.
