Abstracts

The Cloud and Data Centre markets in the Asia Pacific Region report analyses eleven Cloud and third-party Data Centre country markets in the region including Australia, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Singapore, Taiwan, Thailand and Vietnam.

The Data Centres providers in Asia Pacific region is amongst the fastest growing in the world. For example, in China, 21vianet Group and GDS Holdings have reported annual revenue growth rates of 25 per cent and 39 per cent for the year to Q1 2020.

The report looks at the key Cloud and Data Centre developments in the region, including the key metrics of market size, growth, pricing and new investment.

The report features four main sections including:

Section One: The Data Centre Landscape in the Asia Pacific Region – surveys international sub-sea fibre connectivity, domestic fibre connectivity including Dark Fibre connectivity and power availability.

Section Two: Country Survey of the Cloud in the Asia Pacific Region

Section Three: Country Survey of Data Centres in the Asia Pacific Region

Section Four: Profiles of the key Cloud and Data Centre Providers in the Asia Pacific Region

Section Five: Forecasts and Conclusions to the Asia Pacific Region survey – includes

Forecasts for the public cloud markets across the eleven countries (by annual revenues in millions of USD from the beginning of 2021 to the beginning of 2025), and for Data Centre markets across the eleven countries (using the metrics of annual revenues, Data Centre raised floor space and Data Centre Customer Power (DCCP) from the beginning of 2021 to the beginning of 2025). Finally, DCP identifies the key trends and the key conclusions to the report.

Geographical coverage:

Australia

China

Hong Kong

Indonesia

Japan

South Korea

Malaysia

Singapore

Taiwan

Thailand

Vietnam

Contents

METHODOLOGY

About

ABOUT DCP (DATA CENTRE PRICING)

EXECUTIVE SUMMARY

SECTION ONE – THE DATA CENTRE FABRIC IN THE ASIA PACIFIC REGION

Introduction

Sub Sea fibre Connectivity in the Asia Pacific Region

Domestic fibre Connectivity in the Asia Pacific Region

Power in the Asia Pacific Region

Key Point Summary

SECTION TWO – COUNTRY SURVEY OF THE CLOUD IN THE ASIA PACIFIC REGION

Introduction

Details of the key Cloud Service Providers in each of the 11 covered countries with cloud availability zones

Key Point Summary

SECTION THREE – COUNTRY SURVEY OF DATA CENTRES IN THE ASIA PACIFIC REGION

Introduction

A summary of key the third-party Data centres in each of the 11 countries market with a forecasts for each country from the beginning of 2021 to the beginning of 2025

Most recent Data Centre developments in each country

Key Point Summary

SECTION FOUR – KEY CLOUD & DATA CENTRE PROVIDERS IN THE ASIA PACIFIC REGION

Introduction

Key CSP (Cloud Service Providers) Profiles in the Asia Pacific Region including:

Alibaba Cloud Profile

Amazon Web Services (AWS) Profile

Google Cloud Platform (GCP) Profile

IBM Cloud Profile

Microsoft Azure Cloud Profile

Oracle Cloud Profile

Key Data Centre Provider Profiles in the Asia Pacific Region including:

Digital Realty Profile

Equinix Profile

GDS Holdings Profile

Global Switch Profile

i-advantage Data Centre Profile

ST Telemedia (STT) Profile

SECTION FIVE – FORECASTS & CONCLUSIONS TO THE ASIA PACIFIC REGION SURVEY

Introduction

Forecasts for the Cloud markets in the Asia Pacific Region

Forecasts for the Data Centre markets in the Asia Pacific Region

Conclusions for the Asia Pacific Region

Key Point Summary
