About the Report

The aim of the latest Data Centre in Europe report - 2021 to 2025 - provides a comprehensive overview of Data Centre activity across Europe from more than 650 Data Centre Providers in 17 countries (refer to coverage below for detailed list of countries covered).

The Data Centre 2021 report has been comprehensively updated with an extended 4-year forecast from the end of 2021 to the end of 2025. This edition places emphasis on Data Centre power (MW) as well as space shown in square metres, with a forecast for pricing per kW as well as standard rack space and per square metre pricing.

The 2021 report provides details of announced expansions and new plans announced by the so called 650 DCs across all countries.

Newly added with this edition is the a revenue forecast for Public Cloud revenues and third-party Data Centre revenues in each country over the same period.

The report considers the main trends impacting both the Carrier-based Data Centre segment as well as the Carrier Neutral Data Centre segment.

Geographical Coverage: 17 countries including:

Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Ireland, Italy, Netherlands, Norway, Poland, Portugal, Spain, Sweden, Switzerland and the UK.

Coverage per country. For each of the 17 countries surveyed in the country section of the report TCL provides analysis of the following Key Data Centre statistics for each
