Abstracts

This new report considers the growth of Data Centre space, power, pricing for Greece.

The report shows the Revenues for Cloud and Data Centre Market forecast over the period from the beginning of 2022 to the beginning of 2026 and provides profiles of the key Public Cloud and Data Centre providers for Greece.

About the Greek Data Centre market

The Greek Data Centre market has become a hub site for Southern Europe and Balkan markets with a series of carrier neutral Data Centre facilities including Lamda Helix and Lancom – with the cities of Athens and also Thessaloniki being the two main locations for Data Centres in Greece.

The Greek Data Centre market is seeing new investment from US-based Data Centre REIT Digital Realty subsidiary Lamda Helix with an Athens-3 facility and a planned Athens-4 facility. A new Data Centre facility is also being planned by Lancom. Space power and revenues are all forecast to grow by 40 per cent over the next four-year period from the end of 2022 to the end of 2026.

Microsoft has been given approval by the Greece's state agency Enterprise Greece for an investment project for three data centres in the country.

Contents
