Abstracts

The Data Centre Developments in Europe – 2022 onwards report is based on research made for Data Centre planned developments in European Countries using Ddatacentrepricing's unique database of third-party Data Centres in Europe.

For the six-month period (from January to June) of 2022, just under sixty new Data Centre facilities have been tracked by Ddatacentrepricing. By the number of new facilities being developed in 2021 and in 2022 Data Centre growth rates are relatively similar.

The UK sees the highest number of new Data Centre projects with twelve - followed by Germany and Spain seeing eight new announcements.

The report provides a profile of each of the Data Centre that is expanding giving an insight into the presence across Europe as well as details of the proposed development(s).
