About the Irish Data Centre Market

There are just under thirty third-party Data Centres in Ireland. New third-party Irish Data Centre space is forecast to grow by around 13,000 m2 per annum over the period from the beginning of 2022 to the beginning of 2026.

Ireland (Dublin) has also seen the development of dedicated hyperscale Data Centres

by CSPs and digital content providers and has become established as a key European hub.

Data Centre Revenues is forecast to grow by almost 52 per cent over the next four-year period with Irish Public Cloud revenues seeing an even larger percentage growth - 70 per cent - over the coming four years.
