About the Polish Data Centre Market

There are just over fifty third-party Data Centre facilities in Poland.

There are a number of new build Data Centre facilities planned for the Polish market,

led by Vantage Data Centers, who are due to start the construction of a 20,000 m² campus with the first phase to be launched at the end of 2021, and Microsoft is to establish a cloud availability zone in Poland, the first by a global CSP in the country.

Datacentre pricing forecasts the Polish Data Centre market to grow by over 60% over the coming four years, with power to increase by 54% over the same period.
