Abstracts

The latest Tariff Trend Report called 'Latest Development in 5G Pricing' provides an analysis of the latest 5G launches by 46 network operators over the gone nine months.

In addition to providing a profile for each of the new offering, it also offers an analysis of the 46 MNO product launches made plus how each operator positions its new 5G offering versus its 4G offering, in terms of price, allowances, and speed.

Comparisons included in this report cover data allowances, pricing, and download speeds allowing to easy identify which operator offers the best deal.

Contents
