Abstracts

According to “Africa Automotive Battery Market By Type, By Demand Type, By Segment, By Country, Competition Forecast & Opportunities, 2013 – 2023”, Africa automotive battery market is projected to reach \$ 2.3 billion by 2023, exhibiting a CAGR of more than 5% during the forecast period, on account of rising demand for automobiles from growing urban population in the region. Increasing use of two-wheelers and three-wheelers, easy availability of financing options, growing demand for technologically advanced products and rising imports are some of the other factors expected to positively influence automotive battery market in the region over the next five years. Few of the major players operating in Africa automotive battery market include Johnson Controls, First National Battery, SEBANG GLOBAL BATTERY, Assad Group, Federal-Mogul Motorparts LLC, Dixon Batteries, Hyundai Sungwoo Solite Co., Ltd., MARIBAT, Chloride Exide Botswana Pty Ltd., and Robert Bosch (Pty) Ltd., among others. “Africa Automotive Battery Market By Type, By Demand Type, By Segment, By Country, Competition Forecast & Opportunities, 2013 – 2023”, discusses the following aspects of automotive battery market in Africa:

Automotive Battery Market Size, Share & Forecast

Segmental Analysis – By Type (Flooded, VRLA AGM and VRLA GEL), By Demand Type (OEM Vs. Replacement), By Segment (Passenger Car, Medium

& Heavy Commercial Vehicles and Others), By Country

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of automotive battery market in Africa

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, automotive battery manufacturers, distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with automotive battery manufacturers, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
