Abstracts

Market Overview:

Asia Pacific Aerospace Engineering Services Outsourcing Market was valued at USD 39.48 Billion in 2024 and is expected to reach USD 68.74 Billion by 2030 with a CAGR of 9.68% during the forecast period. The Aerospace Engineering Services Outsourcing market is experiencing notable growth, fueled by the increasing complexity of aircraft systems and the need for specialized engineering expertise. Growth is driven by rising demand for cost-effective design, maintenance, and testing services, enabling aerospace companies to optimize operations and reduce time-to-market. The adoption of advanced digital engineering technologies, such as CAD/CAE simulations, predictive analytics, and digital twins, is enhancing service efficiency and accuracy, creating opportunities for service providers to offer high-value solutions.

Market Drivers

Growing Government Investment in the Aviation Sector

Government funding and defense budgets are being directed toward modernizing civil and military aviation capabilities, fueling demand for engineering services. Investments target new aircraft acquisition, upgrades, retrofitting, and infrastructure modernization, all of which require expert engineering support. Public sector initiatives often include partnerships with private engineering service providers to deliver advanced design, testing, and certification solutions efficiently. For instance, The Uttar Pradesh government is targeting \$2 billion in private investment for civil aviation, alongside a \$3.3 billion allocation in FY25 for airstrip modernization, land acquisition, and infrastructure upgrades. Efforts include operationalizing 225 routes under the Regional Connectivity Scheme and upgrading 14 state-owned airstrips, with six prioritized for immediate development. In FY24, the state recorded a 20% rise in flyers and a 50% surge in tourist inflow to 480 million, with tourism and PPP-based helicopter taxi services driving aviation growth.

Key Market Challenges

Intellectual Property and Data Security Concerns

Outsourcing engineering services involves sharing sensitive design data, proprietary algorithms, and technical documentation with third-party service providers. Protecting intellectual property and ensuring data security is a major challenge, as any breach or misuse could lead to financial losses, compromised safety, or legal disputes. Aerospace projects often involve multiple stakeholders across geographies, increasing the risk of unauthorized access or inadvertent disclosure. Companies must implement strict data governance policies, secure communication protocols, and robust cybersecurity measures to safeguard proprietary information while maintaining workflow efficiency. Compliance with international standards, defense regulations, and contractual obligations adds further complexity, as any lapses can damage credibility and result in penalties.

Key Market Trends

Increasing Demand for Fighter Jets

Rising defense modernization programs and strategic military priorities are driving demand for fighter jets, requiring specialized engineering support for design, testing,

upgrades, and maintenance. Outsourced services help defense manufacturers manage the technical complexity of advanced avionics, stealth technology, and weapons integration. Engineering providers are increasingly offering end-to-end solutions, including performance analysis, structural modifications, and certification assistance. The focus on rapid deployment and mission readiness is encouraging the use of simulation, digital twins, and predictive maintenance tools. This trend is creating significant opportunities for service providers to offer scalable, high-precision engineering solutions that align with stringent defense requirements. For instance, India is set to sign a \$1 billion deal with the US firm GE for 113 GE-404 engines to support the Light Combat Aircraft (LCA) Tejas program, ensuring continuity in engine supply for HAL's fleet expansion. This follows a previous Rs 62,000 crore agreement to procure 97 LCA Mark 1A fighter jets. The deal will enable the US firm to supply two engines per month, helping HAL meet its target of 212 GE-404 engines and avoiding production delays. India also plans to acquire GE-414 engines with 80% technology transfer to support LCA Mark 2 and Advanced Medium Combat Aircraft development.

Key Market Players

Northrop Grumman Corporation

Accenture plc

L&T Technology Services

Altran Technologies (now part of Capgemini)

IBM Corporation

Siemens AG

Boeing Global Services

Lockheed Martin Corporation

Raytheon Technologies Corporation

General Electric Aviation

Report Scope:

In this report, Asia Pacific Aerospace Engineering Services Outsourcing Market has been segmented into the following categories, in addition to the industry trends which have also been detailed below:

Asia Pacific Aerospace Engineering Services Outsourcing Market, By Service Type:

Design & Engineering Services

Simulation & Analysis Services

Testing & Certification Services

Manufacturing Support Services

Maintenance, Repair & Overhaul (MRO) Services

Others

Asia Pacific Aerospace Engineering Services Outsourcing Market, By End Use Industry:

Commercial Aviation

Defense & Military

Space & Satellite

Asia Pacific Aerospace Engineering Services Outsourcing Market, By Outsourcing Type:

Offshore Outsourcing

Onshore Outsourcing

Asia Pacific Aerospace Engineering Services Outsourcing Market, By Country:

China

India

Japan

Indonesia

Thailand

South Korea

Australia

Rest of APAC

Competitive Landscape

Company Profiles: Detailed analysis of the major companies presents in Asia Pacific Aerospace Engineering Services Outsourcing Market.

Available Customizations:

Asia Pacific Aerospace Engineering Services Outsourcing Market report with the given market data, TechSci Research offers customizations according to the company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).

Contents

1. INTRODUCTION

- 1.1. Product Overview
- 1.2. Key Highlights of the Report
- 1.3. Market Coverage
- 1.4. Market Segments Covered
- 1.5. Research Tenure Considered

2. RESEARCH METHODOLOGY

- 2.1. Methodology Landscape
- 2.2. Objective of the Study
- 2.3. Baseline Methodology
- 2.4. Formulation of the Scope
- 2.5. Assumptions and Limitations
- 2.6. Sources of Research
- 2.7. Approach for the Market Study
- 2.8. Methodology Followed for Calculation of Market Size & Market Shares
- 2.9. Forecasting Methodology

3. EXECUTIVE SUMMARY

- 3.1. Overview of the Market
- 3.2. Overview of Key Market Segmentations
- 3.3. Overview of Key Regions

4. ASIA PACIFIC AEROSPACE ENGINEERING SERVICES OUTSOURCING MARKET OUTLOOK

- 4.1. Market Size & Forecast
 - 4.1.1. By Value
- 4.2. Market Share & Forecast
 - 4.2.1. By Service Type Market Share Analysis (Design & Engineering Services, Simulation & Analysis Services, Testing & Certification Services, Manufacturing Support Services, Maintenance, Repair & Overhaul (MRO) Services, Others)
 - 4.2.2. By End Use Industry Market Share Analysis (Commercial Aviation, Defense & Military, Space & Satellite)

4.2.3. By Outsourcing Type Market Share Analysis (Offshore Outsourcing, Onshore Outsourcing)

4.2.4. By Country

4.2.5. By Company (2024)

4.3. Market Map

5. CHINA AEROSPACE ENGINEERING SERVICES OUTSOURCING MARKET OUTLOOK

5.1. Market Size & Forecast

5.1.1. By Value

5.2. Market Share & Forecast

5.2.1. By Service Type Market Share Analysis

5.2.2. By End Use Industry Market Share Analysis

5.2.3. By Outsourcing Type Market Share Analysis

6. INDIA AEROSPACE ENGINEERING SERVICES OUTSOURCING MARKET OUTLOOK

6.1. Market Size & Forecast

6.1.1. By Value

6.2. Market Share & Forecast

6.2.1. By Service Type Market Share Analysis

6.2.2. By End Use Industry Market Share Analysis

6.2.3. By Outsourcing Type Market Share Analysis

7. JAPAN AEROSPACE ENGINEERING SERVICES OUTSOURCING MARKET OUTLOOK

7.1. Market Size & Forecast

7.1.1. By Value

7.2. Market Share & Forecast

7.2.1. By Service Type Market Share Analysis

7.2.2. By End Use Industry Market Share Analysis

7.2.3. By Outsourcing Type Market Share Analysis

8. INDONESIA AEROSPACE ENGINEERING SERVICES OUTSOURCING MARKET OUTLOOK

8.1. Market Size & Forecast

8.1.1. By Value

8.2. Market Share & Forecast

8.2.1. By Service Type Market Share Analysis

8.2.2. By End Use Industry Market Share Analysis

8.2.3. By Outsourcing Type Market Share Analysis

9. THAILAND AEROSPACE ENGINEERING SERVICES OUTSOURCING MARKET OUTLOOK

9.1. Market Size & Forecast

9.1.1. By Value

9.2. Market Share & Forecast

9.2.1. By Service Type Market Share Analysis

9.2.2. By End Use Industry Market Share Analysis

9.2.3. By Outsourcing Type Market Share Analysis

10. SOUTH KOREA AEROSPACE ENGINEERING SERVICES OUTSOURCING MARKET OUTLOOK

10.1. Market Size & Forecast

10.1.1. By Value

10.2. Market Share & Forecast

10.2.1. By Service Type Market Share Analysis

10.2.2. By End Use Industry Market Share Analysis

10.2.3. By Outsourcing Type Market Share Analysis

11. AUSTRALIA AEROSPACE ENGINEERING SERVICES OUTSOURCING MARKET OUTLOOK

11.1. Market Size & Forecast

11.1.1. By Value

11.2. Market Share & Forecast

11.2.1. By Service Type Market Share Analysis

11.2.2. By End Use Industry Market Share Analysis

11.2.3. By Outsourcing Type Market Share Analysis

12. MARKET DYNAMICS

- 12.1. Drivers
- 12.2. Challenges

13. KEY MARKET DISRUPTIONS

- 13.1. Conflicts
- 13.2. Pandemic
- 13.3. Trade Barriers

14. MARKET TRENDS & DEVELOPMENTS

15. PORTER'S FIVE FORCES ANALYSIS

16. POLICY & REGULATORY LANDSCAPE

17. COMPETITIVE LANDSCAPE

- 17.1. Company Profiles
 - 17.1.1. Northrop Grumman Corporation
 - 17.1.1.1. Business Overview
 - 17.1.1.2. Company Snapshot
 - 17.1.1.3. Products & Services
 - 17.1.1.4. Financials (As Per Availability)
 - 17.1.1.5. Key Market Focus & Geographical Presence
 - 17.1.1.6. Recent Developments
 - 17.1.1.7. Key Management Personnel
 - 17.1.2. Accenture plc
 - 17.1.3. L&T Technology Services
 - 17.1.4. Altran Technologies (now part of Capgemini)
 - 17.1.5. IBM Corporation
 - 17.1.6. Siemens AG
 - 17.1.7. Boeing Global Services
 - 17.1.8. Lockheed Martin Corporation
 - 17.1.9. Raytheon Technologies Corporation
 - 17.1.10. General Electric Aviation

18. STRATEGIC RECOMMENDATIONS

19. ABOUT US & DISCLAIMER

I would like to order

Product name: Asia Pacific Aerospace Engineering Services Outsourcing Market By Service Type (Design & Engineering Services, Simulation & Analysis Services, Testing & Certification Services, Manufacturing Support Services, Maintenance, Repair & Overhaul (MRO) Services, Others), By End Use Industry (Commercial Aviation, Defense & Military, Space & Satellite), By Outsourcing Type (Offshore Outsourcing, Onshore Outsourcing), By Country, Competition, Forecast & Opportunities, 2020-2030F
