Abstracts

According to “Canada Furnace Filters Market By Filter Category, By Filter Type, By End Use, Competition Forecast & Opportunities, 2013 – 2023”, Canada furnace filters market is projected cross \$ 237 million by 2023, on account of growing concerns regarding the indoor air quality in offices as well as residential set-ups. Increasing incidences of airborne allergies, rising demand for furnaces from various end use industries to beat extreme cold during winters, and growing awareness regarding the timely change of furnace filters is anticipated to positively influence the country’s furnace filters market over the coming years. Rising industrialization and increasing sales of furnace filters through online platforms are among the other factors expected to boost furnace filter sales in the country during the forecast period. “Canada Furnace Filters Market By Filter Category, By Filter Type, By End Use, Competition Forecast & Opportunities, 2013 – 2023”, discusses the following aspects of furnace filters market in Canada:
