## **Abstracts**

China plastic recycling market stood at 60.44 Million Tonnes in 2020 and is forecast to reach 102.20 Million Tonnes by 2030, growing at a healthy CAGR of 5.01% until 2030. For many years, China received the bulk of scrap plastic from various countries such as the United States, Germany, Japan, Australia, etc., and processed much of the plastic waste into a higher quality material, that could be used by manufacturers. Further, in 2019, more than 40 cities in China including, Shanghai, Guangzhou, Xi'an, and Kunming, introduced pilot waste sorting programs for recyclables and trash. Moreover, favorable policies and norms by the Chinese government emphasizing the use of green packaging solutions are anticipated to support the growth of the plastic recycling market in China. The increasing need for plastic recycling in packaging, electrical & electronics, automotive industries, etc., owing to cost optimization and energy-saving benefits is also expected to increase the demand of the plastic recycling market during the forecast period. The COVID-19 outbreak increased the demand for plastic consumption due to its extensive application in the pharmaceutical, food & beverage, and healthcare sector. However, the inappropriate disposal of plastic waste due to lack of laborforce and lockdown restrictions affected the China Plastic Recycling market negatively.

Under this subscription, you would be able to access China Plastic Recycling market demand and supply analysis on a cloud-based platform for one year. Base Year: 2020

Estimated Year: 2021

Forecast Period: 2022 – 2030

This report will be delivered on an online digital platform with a one-year subscription and quarterly update.

#### Deliverables

Installed Capacity By Company-Installed capacity within the country along with the individual capacity of leading players

Installed Capacity By Location-Installed capacity at several locations across the country

Production By Company-Actual production done by different companies

Operating Efficiency By Company-Operating efficiency at which different companies are operating their plants

Demand By End Use-Demand/Sale of Plastic Recycling in different end-user industries across the country

Demand By Sales Channel-Demand/Sale of Plastic Recycling by different sales channels across the country

Demand By Region-Demand/Sale of Plastic Recycling in different regions of the country

Country Wise Exports-Exports of Plastic Recycling by Different Countries

Country Wise Imports-Imports of Plastic Recycling by Different Countries

Demand & Supply Gap-Demand & Supply Gap at country level

Market Share of Leading Players-Revenue shares of leading players in the country

News & Deals-Historical & Current News & Deals in the Plastic Recycling market

To extract data for the China Plastic Recycling market, the ChemAnalyst team conducts primary research surveys with Plastic Recycling manufacturers, suppliers, distributors, wholesalers, and customers, followed by exhaustive secondary research to cross-validate the information being collected through primary research surveys.
