## Abstracts

Egypt textile chemicals market is anticipated to grow significantly in the projected period of 2028 due to increasing demand from the textile industry, growing population and urbanization, advancements in textile technology, and favorable government initiatives.

Egypt is one of the largest producers and consumers of textiles and chemicals in the Middle East and Africa. The textile industry is a key sector of the Egyptian economy, accounting for about 3% of GDP and 15% of exports. The chemical industry is also a major contributor to the industrial development and diversification of Egypt, providing inputs for various sectors such as agriculture, construction, pharmaceuticals, and plastics.

The textile and chemical industries in Egypt face several challenges and opportunities in the domestic and international markets. Some of the challenges include high energy costs, environmental regulations, competition from low-cost producers, and political instability. Furthermore, the textile market of Egypt has various opportunities including increasing demand for high-quality products, innovation and technology transfer, regional integration, and trade agreements. Hence, it is expected that the demand for textile chemicals is going to rise in Egypt.

Increasing Demand via Textile Industry drives the Egypt Textile Chemicals Market Growth

The textile industry is a significant contributor to the economy of Egypt which is 27% of the overall industrial manufacturing economy. The country has a rich history of producing high-quality textiles, and the growing demand for textile products at a global level led to experiencing rapid growth in Egypt textile market. This growth has directly impacted the demand for textile chemicals in Egypt, which are essential in the production of various textile products.

Textile chemicals are used in every stage of textile production, from fiber production to the final product finishing. They play a crucial role in improving the quality, durability, and appearance of textile products. The increasing demand for textiles has led to a corresponding increase in demand for textile chemicals, which are required to meet the growing production needs.

The government of Egypt has taken several initiatives such as providing cheaper land, tax exemptions, and subsidy to promote the textile industry in the country. These initiatives have led to an increase in textile production, which has, in turn, increased the demand for textile chemicals. The government has also offered incentives to textile manufacturers to encourage investment in the industry.

The growing population of Egypt has also contributed to the increase in demand for textile products. As the population grows, so does the demand for clothing and other textile products, which in turn increases the demand for textile chemicals. The rising disposable income of the population has also led to an increase in the consumption of textile products, further fueling the demand for textile chemicals.

Besides, consumers are becoming more environmentally conscious, and this has led to a shift towards eco-friendly and sustainable textile products. Manufacturers are adopting greener production methods, which require the use of eco-friendly textile chemicals. The demand for such chemicals is increasing, and manufacturers are actively seeking out eco-friendly alternatives to traditional textile chemicals. Therefore, the growing population and urbanization in Egypt are driving the demand for textiles and driving the demand for Egypt textile chemicals market.

### Growing Demand for Technical Textiles is Key Factor Driving the Market Growth

The global demand for technical textiles is on the rise, and this trend is also having a significant impact on the Egypt textile chemicals market. Technical textiles are textiles that are used for their performance or functional properties, rather than their aesthetic qualities. They are used in a wide range of applications, including automotive,

aerospace, construction, healthcare, and protective clothing. The growing demand for technical textiles is fueling the demand for textile chemicals in Egypt, which are essential in the production of these specialized fabrics. The study by an Oxford Business Group study stated that the Egyptian construction sector is forecast to expand at 6.6 % CAGR between 2021 and 2025 and is expected to reach USD 44.34 billion by 2025.

The key driver for the rising demand for technical textiles is the increasing need for high-performance materials in various industries. For example, the use of technical textiles in the automotive industry has increased significantly in recent years, as car manufacturers look for lightweight, durable, and cost-effective materials for their vehicles. The use of technical textiles in the aerospace industry has also increased, as manufacturers seek to develop materials that can withstand extreme conditions and provide better insulation.

The healthcare industry is also a major consumer of technical textiles, as they are used in medical textiles, such as bandages, dressings, and surgical gowns. Technical textiles are also used in the production of wound care products, such as dressings that can control bleeding and prevent infections. The growing demand for medical textiles is driving the demand for textile chemicals, which are essential in the production of these specialized fabrics.

Another factor driving the demand for technical textiles is the increasing awareness of the need for protective clothing. Protective clothing is used in a variety of industries, including construction, mining, and firefighting, to protect workers from hazards such as heat, chemicals, and physical trauma. Technical textiles are used in the production of protective clothing, and the growing demand for such clothing is driving the demand for textile chemicals in Egypt.

The production of technical textiles requires the use of specialized textile chemicals, which are designed to meet the specific requirements of these fabrics. For example, textile chemicals used in the production of technical textiles must be able to withstand extreme conditions, such as high temperatures, pressure, and exposure to chemicals. They must also be able to enhance the functional properties of the fabric, such as water resistance, fire retardancy, and UV protection. Therefore, the increase in the demand for technical textiles is expected to positively propel the demand for Egypt textile market growth.

**Rising Technological Advancements is a Primary Reason Responsible for Market**

## Growth

The textile industry is constantly evolving, and advancements in textile technology have played a significant role in driving the demand for textile chemicals in Egypt. New technologies are being developed to improve the quality and efficiency of textile production, and textile chemicals are essential in implementing these advancements.

The major factor for advancements in textile technology is the development of advanced dyeing techniques. These techniques require the use of specialized textile chemicals to ensure the desired color and quality of the fabric. The development of these techniques has led to an increased demand for textile chemicals, as manufacturers seek out the latest and most efficient methods of production.

Another significant advancement in textile technology is the use of nanotechnology in textile production. Nanotechnology is used to develop fabrics with unique properties, such as increased strength, water resistance, and durability. The production of such fabrics requires the use of specialized textile chemicals, which have unique properties that enable them to interact with the nanoparticles in the fabric.

The use of digital printing technology has also led to an increase in demand for textile chemicals. Digital printing allows for more precise and detailed designs to be printed onto fabrics, which requires the use of specialized textile chemicals to ensure the quality and accuracy of the printing process.

The development of smart textiles is also driving the demand for textile chemicals. Smart textiles are fabrics that can sense and respond to their environment, such as fabrics that can regulate body temperature or monitor vital signs. The production of smart textiles requires the use of specialized textile chemicals that can interact with the sensors and electronics embedded in the fabric.

In addition to these advancements, the growing demand for eco-friendly and sustainable textile products has also led to an increase in demand for textile chemicals. Manufacturers are adopting greener production methods, which require the use of eco-friendly textile chemicals. The demand for such chemicals is increasing, and manufacturers are actively seeking out eco-friendly alternatives to traditional textile chemicals. Hence, the Egypt textile chemicals market has continuous market growth, and manufacturers in the industry are likely to continue to experience growth as advancements in textile technology continue and drive demand for Egypt textile chemicals market growth.

## Market Segmentation

Egypt textile chemicals market is segmented based on type, application, and region. Based on the type, the market is divided into colorants, auxiliaries, and others. Based on the application, the market is divided into technical textiles, home textiles, apparels, and others.

## Company Profiles

General Chem Co Ltd., Obegi Chemicals Group, NEROL Manufacturing and Trading Co., Al Yousr Trading & Supplying Chemicals, and Orkila Egypt Chemicals SAE are some of the key players in Egypt textile chemicals market.

## Report Scope:

In this report, Egypt textile chemicals market has been segmented into the following categories, in addition to the industry trends, which have also been detailed below:

### Egypt Textile Chemicals Market, By Type:

Colorants

Auxiliaries

Others

### Egypt Textile Chemicals Market, By Application:

Technical Textiles

Home Textiles

Apparels

Others

### Egypt Textile Chemicals Market, By Region:

Cairo

Alexandria

Giza

Qalyubia

Port Said

Suez

Rest of Egypt

### Competitive landscape

Company Profiles: Detailed analysis of the major companies in Egypt textile chemicals market.

### Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

### Company Information

Detailed analysis and profiling of additional market players (up to five).

## Contents

1. Product Overview
  - 1.1. Market Definition
  - 1.2. Scope of the Market
    - 1.2.1. Markets Covered
    - 1.2.2. Years Considered for Study
    - 1.2.3. Key Market Segmentations

### **2. RESEARCH METHODOLOGY**

- 2.1. Objective of the Study
- 2.2. Baseline Methodology
- 2.3. Key Industry Partners
- 2.4. Major Association and Secondary Sources
- 2.5. Forecasting Methodology
- 2.6. Data Triangulation & Validation
- 2.7. Assumptions and Limitations

### **3. EXECUTIVE SUMMARY**

- 3.1. Overview of the Market
- 3.2. Overview of Key Market Segmentations
- 3.3. Overview of Key Market Players
- 3.4. Overview of Key Regions/Countries
- 3.5. Overview of Market Drivers, Challenges, Trends

### **4. VOICE OF CUSTOMER**

- 4.1. Brand Awareness
- 4.2. Preference, By Type
- 4.3. Demand, By Application

### **5. EGYPT TEXTILE CHEMICALS MARKET OUTLOOK**

- 5.1. Market Size & Forecast
  - 5.1.1. By Value & Volume
- 5.2. Market Share & Forecast
  - 5.2.1. By Type (Colorants, Auxiliaries, and Others)

- 5.2.2. By Application (Technical Textiles, Home Textiles, Apparels, and Others)
- 5.2.3. By Region (Cairo, Alexandria, Giza, Qalyubia, Port Said, Suez, and Rest of Egypt)
- 5.2.4. By Company (2022)
- 5.3. Product Market Map

## **6. CAIRO TEXTILE CHEMICALS MARKET OUTLOOK**

- 6.1. Market Size & Forecast
  - 6.1.1. By Value & Volume
- 6.2. Market Share & Forecast
  - 6.2.1. By Type
  - 6.2.2. By Application

## **7. ALEXANDRIA EGYPT TEXTILE CHEMICALS MARKET OUTLOOK**

- 7.1. Market Size & Forecast
  - 7.1.1. By Value & Volume
- 7.2. Market Share & Forecast
  - 7.2.1. By Type
  - 7.2.2. By Application

## **8. GIZA TEXTILE CHEMICALS MARKET OUTLOOK**

- 8.1. Market Size & Forecast
  - 8.1.1. By Value & Volume
- 8.2. Market Share & Forecast
  - 8.2.1. By Type
  - 8.2.2. By Application

## **9. QALYUBIA TEXTILE CHEMICALS MARKET OUTLOOK**

- 9.1. Market Size & Forecast
  - 9.1.1. By Value & Volume
- 9.2. Market Share & Forecast
  - 9.2.1. By Type
  - 9.2.2. By Application

## **10. PORT SAID TEXTILE CHEMICALS MARKET OUTLOOK**

## 10.1. Market Size & Forecast

### 10.1.1. By Value & Volume

## 10.2. Market Share & Forecast

### 10.2.1. By Type

### 10.2.2. By Application

## **11. SUEZ TEXTILE CHEMICALS MARKET OUTLOOK**

## 11.1. Market Size & Forecast

### 11.1.1. By Value & Volume

## 11.2. Market Share & Forecast

### 11.2.1. By Type

### 11.2.2. By Application

## **12. MARKET DYNAMICS**

## 12.1. Drivers

## 12.2. Challenges

## **13. MARKET TRENDS & DEVELOPMENTS**

## 13.1. Research & Development

## 13.2. Product launch

## 13.3. Merger & Acquisition

## **14. EGYPT TEXTILE CHEMICALS MARKET: SWOT ANALYSIS**

## **15. PORTER'S FIVE FORCES ANALYSIS**

## 15.1. Competition in the Industry

## 15.2. Potential of New Entrants

## 15.3. Power of Suppliers

## 15.4. Power of Customers

## 15.5. Threat of Substitute Products

## **16. COMPETITIVE LANDSCAPE**

## 16.1. Business Overview

- 16.2. Product Offerings
- 16.3. Recent Developments
- 16.4. Financials (In Case of Listed Companies)
- 16.5. Key Personnel
  - 16.5.1. General Chem Co Ltd.
  - 16.5.2. Obegi Chemicals Group
  - 16.5.3. NEROL manufacturing and trading Co.
  - 16.5.4. Al Yousr Trading & Supplying Chemicals
  - 16.5.5. Orkila Egypt Chemicals SAE

## **17. STRATEGIC RECOMMENDATIONS**

## **18. ABOUT US & DISCLAIMER**

## I would like to order

Product name: Egypt Textile Chemicals Market, By Type (Colorants, Auxiliaries, and Others), By Application (Technical Textiles, Home Textiles, Apparels, and Others), By Region, Competition, Forecast, and Opportunities, 2028

Product link: <https://marketpublishers.com/r/E165181D00CFEN.html>

Price: US\$ 3,500.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
