## Abstracts

According to “Europe Animal Feed Additive Market By Type, By Livestock, By Country, Competition Forecast & Opportunities, 2013 – 2023” animal feed additive market is projected to reach \$ 2.68 billion by 2023, on the back of growing demand for animal food such as milk, eggs, fish and meat. Moreover, increasing preference for processed food, high urbanization and growing demand from consumers for protein rich diets resulting in huge consumption of poultry and pork are expected to boost demand for animal feed additives in the region. Demand for animal feed additives is also anticipated to be driven by additives’ ability of improving feed utilization and preventing disease. Some of the major players operating in Europe animal feed additive market are Koninklijke DSM N.V., Evonik Industries AG, DuPont Deutschland Holding GmbH & Co. KG, Adisseo France S.A.S, BASF SE, Cargill Europe BVBA, Lonza AG, ADM Europe BV, Novozymes A/S, and Chr. Hansen A/S, among others. “Europe Animal Feed Additive Market By Type, By Livestock, By Country, Competition Forecast & Opportunities, 2013 – 2023” discusses the following aspects of animal feed additive market in Europe:

Animal Feed Additive Size, Share & Forecast

Segmental Analysis – By Type (Amino Acids, Vitamins, Minerals, Enzymes & Others), By Livestock (Poultry, Swine, Cattle, Aquaculture & Others), By Country

Competitive Analysis

## Changing Market Trends & Emerging Opportunities

### Why You Should Buy This Report?

To gain an in-depth understanding of animal feed additive market in Europe

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, animal feed additive distributor, distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

### Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with animal feed additive distributor, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
