Abstracts

Pipeline infrastructure is expected to develop rapidly in the region, owing to recently commissioned oil & gas pipeline projects, such as Trans-Saharan Gas Pipeline and TAPI and Russia-South Korea projects, thereby, driving growth in Europe oil & gas pipeline leak and theft detection market during the forecast period. The trend comprises of higher growth (in terms of pipeline length) in transmission lines between Europe and other nations and over 75% of this growth is contributed by onshore market. Western Europe is expected to garner the highest demand for energy in the region, and would be the largest importer of oil & natural gas in Europe.

According to “Europe Oil & Gas Pipeline Leak and Theft Detection Market, Competition Forecast & Opportunities, 2012 – 2022”, Europe oil & gas pipeline leak and theft detection market is projected to reach \$ 0.43 billion by 2022. High damage caused to the environment in the event of leaks and spills, and renewed focus on such incidents is making leak and theft detection a compulsion for pipeline operators, thus adding to the Europe oil & gas pipeline leak and theft detection market. Few of the leading players in Europe oil & gas pipeline leak and theft detection market include PSI AG, Siemens AG, Schneider Electric, Pentair Ltd, and Expro Holdings. “Europe Oil & Gas Pipeline Leak and Theft Detection Market, Competition Forecast & Opportunities, 2012 – 2022” discusses the following aspects of Europe oil & gas pipeline leak and theft detection market:
