Abstracts

According to “Europe Rail Freight Transportation Market By Product, By Intermodal, By Consignment, By Country, Competition Forecast & Opportunities, 2013 – 2023”, rail freight transportation market is projected to reach \$ 34 billion by 2023 in Europe, backed by increasing government funding towards railway infrastructure improvement projects. Increasing demand for logistics, technological advancements, growing rail network and increasing number of mining activities are expected to drive the rail freight transportation market in Europe over the coming years. Moreover, implementation of big data technology for increasing efficiency, development of rail freight corridors, and expanding automotive sector are some of the other driving factors for the region’s rail freight transportation market. Some of the major players operating in Europe rail freight transportation market are DB Cargo, Rail Freight Cargo Austria, PKP Cargo S.A., SNCF Mobilit?s Group, SBB Cargo, Ferrovie dello Stato SpA, Genesee & Wyoming Inc, EQT Infrastructure II GP BV, etc. “Europe Rail Freight Transportation Market By Product, By Intermodal, By Consignment, By Country, Competition Forecast & Opportunities, 2013 – 2023” discusses the following aspects of rail freight transportation market in Europe:

Rail Freight Transportation Market Size, Share & Forecast

Segmental Analysis – By Product, By Intermodal (Containers and Swap Bodies, Road Vehicles (Accompanied) & Semi-Trailers (Unaccompanied)), By Consignment, By Country

Competitive Analysis

Changing Market Trends & Emerging Opportunities

Why You Should Buy This Report?

To gain an in-depth understanding of rail freight transportation market in Europe

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, rail freight transportation manufacturers, distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with rail freight transportation manufacturers, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
