## **Abstracts**

The Europe Recombinant Protein Manufacturing Services Market, valued at USD 1.11 Billion in 2022, is expected to experience robust growth in the forecast period, with a projected Compound Annual Growth Rate (CAGR) of 10.40% through 2028 and expected to reach at USD 2.00 Billion in 2028. In the dynamic biotechnology sector, recombinant proteins have become essential tools for research, drug development, and various industrial applications. Europe leads the way in this scientific revolution, boasting a thriving Recombinant Protein Manufacturing Services Market. This market has not only transformed drug discovery but has also driven advancements in biomedicine, agriculture, and environmental protection.

Recombinant proteins, also known as bioengineered proteins, are produced by manipulating the genetic material of organisms. This involves inserting specific genes into host cells, which then produce the desired protein through fermentation or cell culture. The ability to manufacture complex and precise proteins on a large scale has revolutionized fields such as medicine, diagnostics, and biotechnology. The Europe Recombinant Protein Manufacturing Services Market has experienced remarkable growth due to the increasing demand for biopharmaceuticals, personalized medicine,

and advancements in protein-based therapies. Recombinant proteins play a pivotal role in the development of biopharmaceuticals, including monoclonal antibodies, vaccines, and enzyme replacement therapies, contributing to the growth of the market. The prevalence of chronic diseases like cancer, diabetes, and autoimmune disorders has driven the development of targeted therapies, with recombinant proteins playing a key role in designing drugs that specifically target disease-associated proteins.

Technological advancements in genetic engineering, protein expression systems, and cell culture techniques have streamlined the production of recombinant proteins, enhancing efficiency and scalability. Collaborations between academic institutions, research centers, and pharmaceutical companies have accelerated the discovery and development of novel proteins, expanding the market's horizons. The growing biopharmaceutical sector in Europe presents a remarkable opportunity for the recombinant protein manufacturing services market. Collaboration between pharmaceutical companies and contract manufacturing organizations (CMOs) will play a crucial role in meeting the demand for high-quality, effective, and safe biopharmaceutical products. The dynamic landscape of Europe, characterized by technological advancements and evolving healthcare needs, paves the way for transformative medical treatments and economic growth in the recombinant protein manufacturing sector.

### Key Market Drivers

1. **Increasing Prevalence of Chronic Diseases Drives Growth:** The rising prevalence of chronic diseases in Europe is fueling the demand for advanced therapeutic solutions, including recombinant proteins. These diseases, such as diabetes, cardiovascular diseases, cancer, and autoimmune disorders, place a growing burden on healthcare systems. Recombinant proteins offer personalized treatment options, driving demand for customized manufacturing services.

2. **Increasing Demand for Biopharmaceuticals:** The biopharmaceutical industry is expanding rapidly, driven by the need for personalized medicine and innovative therapies. Recombinant proteins are essential in developing these therapies, leading to increased demand for manufacturing services. Contract manufacturing organizations (CMOs) specializing in recombinant proteins are playing a pivotal role in meeting this demand.

### Key Market Challenges

1. **Complex Regulatory Landscape:** Navigating the complex regulatory environment in Europe is a significant challenge for the recombinant protein manufacturing services market. Stringent regulations and guidelines from multiple regulatory bodies must be followed, which can lead to delays and increased costs if not managed effectively.
2. **Cost Pressures:** Manufacturing recombinant proteins involves significant costs, including equipment, materials, personnel, and quality control measures. Companies must balance quality and cost-effectiveness to remain competitive.
3. **Quality Assurance and Control:** Maintaining consistent quality and ensuring protein purity are crucial for effectiveness and safety. Achieving high levels of quality control is challenging due to the complexity of protein production.
4. **Talent Shortage:** Europe faces a shortage of skilled professionals in biotechnology and life sciences, impacting the industry's growth and innovation potential.
5. **Intellectual Property Issues:** Navigating intellectual property rights can be complex in the recombinant protein manufacturing services market, requiring careful consideration and legal expertise.

### Key Market Trends

1. **Technological Advancements:** Europe has witnessed significant technological advancements in recombinant protein manufacturing, driven by cutting-edge gene editing technologies like CRISPR-Cas9, automation, robotics, advanced expression systems, and improved analytics and characterization tools.

### Segmental Insights

1. **Service Type:** The Commercial Production Services segment dominates the market due to its reputation for delivering high-quality products and services, expertise in recombinant protein manufacturing, and access to advanced technology.
2. **Host Cell:** Mammalian Cells are the preferred choice for recombinant protein production in Europe due to their ability to perform critical post-translational modifications and produce proteins with structures similar to human proteins.

### Regional Insights

1. Germany: Germany leads in recombinant protein manufacturing services, with a strong biotechnology sector, research institutions, skilled workforce, and investments in R&D. The country's commitment to quality and compliance contributes to its dominance in the market.

### Key Market Players

Lonza

Boehringer Ingelheim International GmbH

FUJIFILM Diosynth Biotechnologies

Merck KGaA

Bruker (InVivo BioTech Services GmbH)

Sino Biological, Inc.

GenScript

Kaneka corporation (Kaneka Eurogentec S.A)

Polyplus Transfection (Xpress Biologics)

Boster Biological Technology

Trenzyme GmbH

### Report Scope:

In this report, the Europe Recombinant Protein Manufacturing Services Market has been segmented into the following categories, in addition to the industry trends which have also been detailed below:

Recombinant Protein Manufacturing Services Market, By Service Type:

Pre-clinical & Clinical Services

Commercial Production Services

Recombinant Protein Manufacturing Services Market, By Host Cell:

Mammalian Cells

Bacterial Cells

Insect Cells

Yeast & Fungi

Others

Recombinant Protein Manufacturing Services Market, By End Use:

Pharmaceutical & Biotechnology Companies

Academic & Research Institutes

Recombinant Protein Manufacturing Services Market, By Region:

France

Germany

United Kingdom

Italy

Spain

Finland

Switzerland

Netherlands

Denmark

Poland

## Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in the Europe Recombinant Protein Manufacturing Services Market.

## Available Customizations:

Europe Recombinant Protein Manufacturing Services Market report with the given market data, Tech Sci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

## Company Information

Detailed analysis and profiling of additional market players (up to five).

## Contents

### **1. PRODUCT OVERVIEW**

- 1.1. Market Definition
- 1.2. Scope of the Market
  - 1.2.1. Markets Covered
  - 1.2.2. Years Considered for Study
  - 1.2.3. Key Market Segmentations

### **2. RESEARCH METHODOLOGY**

- 2.1. Objective of the Study
- 2.2. Baseline Methodology
- 2.3. Key Industry Partners
- 2.4. Major Association and Secondary Sources
- 2.5. Forecasting Methodology
- 2.6. Data Triangulation & Validation
- 2.7. Assumptions and Limitations

### **3. EXECUTIVE SUMMARY**

- 3.1. Overview of the Market
- 3.2. Overview of Key Market Segmentations
- 3.3. Overview of Key Market Players
- 3.4. Overview of Key Regions/Countries
- 3.5. Overview of Market Drivers, Challenges, and Trends

### **4. VOICE OF CUSTOMER**

### **5. EUROPE RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

- 5.1. Market Size & Forecast
  - 5.1.1. By Value
- 5.2. Market Share & Forecast
  - 5.2.1. By Service Type (Pre-clinical & Clinical Services and Commercial Production Services)

5.2.2. By Host Cell (Mammalian Cells, Bacterial Cells, Insect Cells, Yeast & Fungi and Others)

5.2.3. By End Use (Pharmaceutical & Biotechnology Companies, Academic & Research Institutes)

5.2.4. By Country

5.2.5. By Company

5.3. Market Map

5.3.1. By Service Type

5.3.2. By Host Cell

5.3.3. By End Use

5.3.4. By Country

## **6. FRANCE RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

6.1. Market Size & Forecast

6.1.1. By Value

6.2. Market Share & Forecast

6.2.1. By Service Type

6.2.2. By Host Cell

6.2.3. By End Use

## **7. GERMANY RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

7.1. Market Size & Forecast

7.1.1. By Value

7.2. Market Share & Forecast

7.2.1. By Service Type

7.2.2. By Host Cell

7.2.3. By End Use

## **8. UNITED KINGDOM RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

8.1. Market Size & Forecast

8.1.1. By Value

8.2. Market Share & Forecast

8.2.1. By Service Type

8.2.2. By Host Cell

8.2.3. By End Use

## **9. ITALY RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

9.1. Market Size & Forecast

9.1.1. By Value

9.2. Market Share & Forecast

9.2.1. By Service Type

9.2.2. By End Use

## **10. SPAIN RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

10.1. Market Size & Forecast

10.1.1. By Value

10.2. Market Share & Forecast

10.2.1. By Service Type

10.2.2. By Host Cell

10.2.3. By End Use

## **11. NETHERLANDS RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

11.1. Market Size & Forecast

11.1.1. By Value

11.2. Market Share & Forecast

11.2.1. By Service Type

11.2.2. By Host Cell

11.2.3. By End Use

## **12. SWITZERLAND RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

12.1. Market Size & Forecast

12.1.1. By Value

12.2. Market Share & Forecast

12.2.1. By Service Type

12.2.2. By Host Cell

12.2.3. By End Use

## **13. SWEDEN RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

13.1. Market Size & Forecast

13.1.1. By Value

13.2. Market Share & Forecast

13.2.1. By Service Type

13.2.2. By Host Cell

13.2.3. By End Use

## **14. BELGIUM RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

14.1. Market Size & Forecast

14.1.1. By Value

14.2. Market Share & Forecast

14.2.1. By Service Type

14.2.2. By Host Cell

14.2.3. By End Use

## **15. IRELAND RECOMBINANT PROTEIN MANUFACTURING SERVICES MARKET OUTLOOK**

15.1. Market Size & Forecast

15.1.1. By Value

15.2. Market Share & Forecast

15.2.1. By Service Type

15.2.2. By Host Cell

15.2.3. By End Use

## **16. MARKET DYNAMICS**

16.1. Drivers

16.2. Challenges

## **17. MARKET TRENDS & DEVELOPMENTS**

- 17.1. Merger & Acquisition
- 17.2. Product Development
- 17.3. Recent Developments

## **18. PORTERS FIVE FORCES ANALYSIS**

- 18.1. Competition in the Industry
- 18.2. Potential of New Entrants
- 18.3. Power of Suppliers
- 18.4. Power of Customers
- 18.5. Threat of Substitute Products

## **19. COMPETITIVE LANDSCAPE**

- 19.1. Business Overview
- 19.2. Company Snapshot
- 19.3. Products & Services
- 19.4. Financials (As Reported)
- 19.5. Recent Developments
- 19.6. SWOT Analysis
  - 19.6.1. Lonza
  - 19.6.2. Boehringer Ingelheim International GmbH
  - 19.6.3. FUJIFILM Diosynth Biotechnologies
  - 19.6.4. Merck KGaA
  - 19.6.5. Bruker (InVivo BioTech Services GmbH)
  - 19.6.6. Sino Biological, Inc.
  - 19.6.7. GenScript
  - 19.6.8. Kaneka corporation (Kaneka Eurogentec S.A)
  - 19.6.9. Polyplus Transfection (Xpress Biologics)
  - 19.6.10. Boster Biological Technology
  - 19.6.11. Trenzyme GmbH

## **20. STRATEGIC RECOMMENDATIONS**

## **21. ABOUT US & DISCLAIMER**

## I would like to order

Product name: Europe Recombinant Protein Manufacturing Services Market, By Service Type (Pre-clinical & Clinical Services and Commercial Production Services), By Host Cell (Mammalian Cells, Bacterial Cells, Insect Cells, Yeast & Fungi and Others), By End Use (Pharmaceutical & Biotechnology Companies, Academic & Research Institutes), By Region, Competition Forecast & Opportunities, 2028.

Product link: <https://marketpublishers.com/r/E09C3BE3329FEN.html>

Price: US\$ 4,400.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
