Abstracts

France advanced tires market is projected to grow from \$ 196 million in 2018 to \$ 333 million by 2024, exhibiting a CAGR of over 9% during the forecast period, on account of increasing production and sales of premium cars and developments in connected car technologies. Moreover, growing focus of tire manufacturers on advanced technologies such as organic raw material, 3D printing and autonomous vehicles is expected to bolster the demand for advanced tires in the country. In terms of vehicle type, France advanced tires market has been categorized into on-highway vehicle and off-highway vehicle. Of these categories, on-highway vehicles are further segmented into light-duty vehicles and heavy-duty vehicles. Owing to the growing production of premium vehicles, the light-duty vehicle segment is expected to account for the largest share in the country's advanced tires market during the forecast period.

Years considered for this report:

Historical Years: 2014-2017

Base Year: 2018

Estimated Year: 2019

Forecast Period: 2020-2024

Objective of the Study:

To analyze and forecast France advanced tires market size.

To classify and forecast France advanced tires market based on vehicle type, technology, tire type, material type and regional distribution.

To identify drivers and challenges for France advanced tires market.

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in France advanced tires market.

To conduct the pricing analysis for France advanced tires market.

To identify and analyze the profile of leading players operating in France advanced tires market.

Some of the prominent players in France advanced tires market are Compagnie Générale des Établissements Michelin (CGEM), Bridgestone Europe NV/SA, Continental Aktiengesellschaft, Goodyear France SAS, Pirelli & C. S.p.A., Hankook Tire France SARL, Yokohama France SAS, Apollo Tyres Ltd., Cooper Tire & Rubber Company France SARL and Kumho Tire Co., Inc.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of manufacturers across the country. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the manufacturers which could not be identified due to the limitations of secondary research. TechSci Research analyzed manufacturers and distribution channels along with the presence of all major manufacturers across the country.

TechSci Research calculated France advanced tires market size by using a bottom-up approach, where data for various end-user segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and

company representatives and externally validated through analyzing historical data of these vehicle types and technologies for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Original equipment manufacturers

Advanced tire manufacturers, suppliers and distributors

End users of advanced tires

Research organizations and consulting companies

Government bodies such as regulating authorities and policy makers

Organizations, forums and alliances related to advanced tires

The study is useful in providing answers to several critical questions that are important for industry stakeholders such as manufacturers and partners, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

Report Scope:

In this report, France advanced tires market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Market, by Vehicle Type:

On-Highway

Light Duty Vehicles

Heavy Duty Vehicles

Off-Highway

Agricultural Tractors

Construction & Mining Equipment

Industrial Equipment

Market, by Technology:

Chip-Embedded Tires

Multi-Chambered Tires

Self-Inflating Tires

All-In-One Tires

TPMS

Market, by Tire Type:

Run-Flat

Airless

Pneumatic

Market, by Material Type:

Natural Rubber

Synthetic Rubber

Steel

Others

Market, by Region:

Northern France

Western France

Southern France

Eastern France

South Western France
