Abstracts

France LPG market demand stood at 6.6 Million Tonnes in 2020 and is forecast to reach 11.61 Thousand Million by 2030, growing at a healthy CAGR of 6.03% until 2030. The household and commercial sectors hold the majority share in the annual LPG consumption. The demand from the country's petrochemicals sector has shown double-digit growth in the past 2 years. France is discovering the potential of the LPG fuel in the niche sectors, analyzing the environmental benefits that the fuel usage holds. These factors are likely to propel the LPG market growth prospects in France. Since the onset of COVID-19, the demand from the commercial sector has declined. The demand for LPG from the residential sectors boosted during this period. Disruption in the supply chain and the lockdown restrictions further contributed to the market decline. However, with the growing demand from the various end-user industries, the market is expected to pick up the pace in the forecast period.

Under this subscription, you would be able to access France LPG market demand and supply analysis on a cloud-based platform for one year. The data is updated on a near real-time basis to add any new movement in the industry including but not limited to new plant announcements, plant shutdowns, temporary disruptions in demand or supply, news and deals, and much more specific to LPG.
