Abstracts

Germany Bisphenol S demand stood at 6.20 Thousand Tonnes in 2020 and is forecast to reach 40.56 Thousand Tonnes by 2030, growing at a healthy CAGR of 18.70% until 2030. The rising number of thermal paper manufacturing companies extensively is expected to increase the demand for Bisphenol S during the forecast period owing to Bisphenol S being a major component of the thermal paper manufacturing process. Germany is one of the major economies in Europe. Moreover, the country is one of the key markets of European Union (EU) member countries. Good macroeconomic indicators ensure the rising growth in the construction sector. This is going to create demand for epoxy resin which has the major requirement of Bisphenol S in the production process thereby the demand for Bisphenol S from the construction industry is expected to witness a surge in the forecast period. During 2015-2019, in terms of greenfield projects investments, Germany managed to secure top place among European countries. As a result, the country's construction sector witnessed growth during the period. Demand growth from other sectors includes the phenolic resin and polyurethane market. COVID-19 pandemic had a severe impact on the market, in general, and disrupted the country's economy. Furthermore, the major market players intentionally halted the production keeping their employees' health and wellness in mind. With imposed new regulations of the COVID-19 and proper precautions, the market is anticipated to regain its growth in the years to come. Once the market regains the full function of its production unit, the market is bound to show robust growth in the forecast period.
