Abstracts

Global AI in healthcare market was valued at USD8231.36 million, which is further expected to grow with an impressive CAGR of 21.56% during the forecast period, to achieve a market value of USD25121.10 million by 2027. Exceptional integration of technology and internet-based services in the healthcare sector will drive the global AI in healthcare market in the next five years. Consistent development through research and innovative addition to medical devices and medical procedures supports the growth of the global AI in healthcare market in the next five years.

The growing abundance of medical data and the demand for storing that data regarding patient and medical cases further aids the growth of the global AI in healthcare market in the next five years. Surging demands for precision medicine also aid the market growth. The precision medicines are designed according to the genetic map of the patient, highly specific for the respective patient and their disease or condition that requires the involvement of well-advanced technology and artificial intelligence that can

formulate the structure of the drug and analyze its effect on the patient through various bio-chemical procedures, thereby substantiating the growth of the global AI in healthcare market in the forecast years through 2027.

The global AI in healthcare market is segmented based on offering, technology, application, end user, region, and company. Based on the offering, the market can be split into software and hardware. The software segment is anticipated to hold the largest revenue shares of the market and dominate the market in the upcoming five years on the increasing involvement of technologically advanced medical procedures that guarantee better healthcare services and efficient methods of patient care. Based on technology, the market can be categorized into machine learning, computer vision, natural language processing, and context-aware computing. Based on end user, the market can be segmented into healthcare providers, pharmaceutical & biotechnology companies, patients, and others. Regionally, North America dominates the market in Europe, Asia Pacific, South America, and the Middle East & Africa region.

Alphabet Inc, Microsoft Corporation, Intel Corporation, NVIDIA Corporation, Medtronic Plc, Koninklijke Philips, Siemens Healthineers, General Electric Company, Micron Technology Amazon Web Services are among the major market players in the global platform that lead the market growth of the global AI in healthcare market.

Years considered for this report:

Historical Years: 2017- 2020

Base Year: 2021

Estimated Year: 2022

Forecast Period: 2023 – 2027

Objective of the Study:

To analyze the market size of global AI in healthcare market from 2017 to 2021.

To estimate and forecast the market size of global AI in healthcare market from 2022 to 2027 and growth rate until 2027.

To classify and forecast global AI in healthcare market based on offering, technology, application, end user, region, and company.

To identify dominant region or segment in the global AI in healthcare market.

To identify drivers and challenges for global AI in healthcare market.

To examine competitive developments such as expansions, new product & service launches, mergers & acquisitions, etc., in global AI in healthcare market.

To identify and analyze the profile of leading players operating in global AI in healthcare market.

To identify key sustainable strategies adopted by market players in global AI in healthcare market.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of manufacturers & service providers across the globe. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the manufacturers & service providers which could not be identified due to the limitations of secondary research. TechSci Research analyzed the manufacturers & service providers, distribution channels and presence of all major players across the globe.

TechSci Research calculated the market size of global AI in healthcare market using a bottom-up approach, wherein data for various end-user segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated through analyzing historical data of these products & services and applications for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Manufacturers & service providers, suppliers

Distributors and other stakeholders

Government bodies such as regulating authorities and policy makers

Organizations, forums and alliances related to AI healthcare

Market research and consulting firms

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as manufacturers, service providers, suppliers, partners, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

Report Scope:

In this report, global AI in healthcare market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

AI in Healthcare Market, By Offering:

Software

Hardware

AI in Healthcare Market, By Technology:

Machine Learning

Computer Vision

Natural Language Processing

Context-Aware Computing

AI in Healthcare Market By Application:

Medical Imaging & Diagnostics

Robotic Surgeries

Drug Discovery

Inpatient Care & Hospital Management

Patient Data & Risk Analysis

Others

AI in Healthcare Market By End User:

Healthcare Providers

Pharmaceutical & Biotechnology Companies

Patients

Others

AI in Healthcare Market, By Region:

North America

United States

Canada

Mexico

Europe

United Kingdom

Germany

France

Italy

Spain

Netherlands

Asia-Pacific

China

Japan

India

South Korea

Australia

Indonesia

South America

Brazil

Argentina

Colombia

Chile

Middle East & Africa

South Africa

Saudi Arabia

Turkey

UAE

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in global AI in healthcare market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).

Contents

1. PRODUCT OVERVIEW

2. RESEARCH METHODOLOGY

3. EXECUTIVE SUMMARY

4. IMPACT OF COVID-19 ON GLOBAL AI IN HEALTHCARE MARKET

5. VOICE OF CUSTOMER

5.1. Benefits of Using AI in Healthcare

5.2. Commonly Used Technology

5.3. Demand, By Application

5.4. Barriers to Adoption

6. GLOBAL AI IN HEALTHCARE MARKET OUTLOOK

6.1. Market Size & Forecast

6.1.1. By Value

6.2. Market Share & Forecast

6.2.1. By Offering (Software v/s Hardware)

6.2.2. By Technology (Machine Learning, Computer Vision, Natural Language Processing, Context-Aware Computing)

6.2.3. By Application (Medical Imaging & Diagnostics, Robotic Surgeries, Drug Discovery, Inpatient Care & Hospital Management, Patient Data & Risk Analysis, Others)

6.2.4. By End User (Healthcare Providers, Pharmaceutical & Biotechnology Companies, Patients, Others)

6.2.5. By Region

6.2.6. By Company (2021)

6.3. Product Market Map
