Abstracts

Increasing food security issues across the globe due to population outburst is further supporting the demand for bio pesticides in developing as well as developed nations. Major agrarian economies such as India, Brazil, etc., are extensively adopting sustainable crop protection products and pesticides in their farming methods, which is anticipated to drive the global bio pesticides market over the coming years.

According to 'Global Bio Pesticides Market By Origin, By Formulation, By Type, By Application, By Crop Type, By Region, Competition Forecast & Opportunities, 2012-2026', The global bio pesticides market is projected to grow at a CAGR of more than 16% by 2026. The growth in the global bio pesticides market is expected on account of various promotional activities carried out by government agencies and groups to replace the hazardous and expensive synthetic pesticides with environment-friendly and inexpensive substitutes. Some of the major players operating in the global bio pesticides market are Bayer AG, BASF AG, Sumitomo Chemical, Syngenta, Monsanto Company, Marrone Bio Innovations, Certis USA, Isagro, Novozymes A/S, Arysta Life Science, and Marrone Bio Innovations. 'Global Bio Pesticides Market By Origin, By Formulation, By Type, By Application, By Crop Type, By Region, Competition Forecast & Opportunities, 2012-2026' discusses the following aspects of bio pesticides market in globally:

Bio Pesticides Rental Market Size, Share & Forecast

Segmental Analysis – By Type (Bio insecticides, Bio fungicides, Bio herbicides and Others), By Origin (Microbials, Macro-organisms and Biochemicals), By Crop (Fruits & Vegetables, Grains & Oil Seeds and Others), By Applications (Foliar Spray, Soil Treatment, Seed Treatment and Post-Harvest), By Formulation (Liquid Formulation and Dry Formulation)

Competitive Analysis

Changing Market Trends & Emerging Opportunities

WHY YOU SHOULD BUY THIS REPORT?

To gain an in-depth understanding of bio pesticides market globally

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, bio pesticides manufacturers, distributors and other stakeholders align their market-centric strategies

To obtain research based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

REPORT METHODOLOGY

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with bio pesticides manufacturers, distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.
