Abstracts

Global Bleeding Disorders Drugs Market is expected to grow at robust rate with a CAGR of 8.44% in value terms to reach USD24078.16 million by 2026 on account of increasing concerns for blood disorders among the worldwide population. Rising cases of bleeding disorders across the globe is a major driving force for the Global Bleeding Disorders Drugs Market in the forecast period, 2022-2026F. Moreover, increasing awareness towards the growing patient count and availability of treatment methods will support the growth of Global Bleeding Disorders Drugs Market, positively.

Global Bleeding Disorders Drugs Market is segmented by drug type, disease type, distribution channel, gender, end user, and regional distribution. Based on disease type the market is further fragmented into Hemophilia A, Hemophilia B, Von Willebrand Disease, and others. Hemophilia A disease is the most common among the disease type and thus drives Global Bleeding Disorders Drugs market.

The drug type segment has been further segregated into Plasma-derived Coagulation Factor Concentrates, Recombinant Coagulation Factor Concentrates, Desmopressin, Antifibrinolytics, Fibrin Sealants and Others. The Recombinant Coagulation Factor Concentrates dominated the overall market with 52.91% market share in 2020. The Region segment is fragmented into North America, Asia-Pacific, Europe, South America and Middle East and Africa. North America is expected to dominate the market whereas Asia-Pacific is projected to be the fastest leading region in the forecast period.

Some of the major competitors in the market are Bayer AG, Grifols S.A., Pfizer Inc., Octapharma AG, Ferring Pharmaceuticals SA, Sanofi SA, Baxter International Inc., F. Hoffmann-La Roche Ltd., Takeda Pharmaceuticals Ltd., Novo Nordisk A/S, Novartis AG, CSL Limited, Teva Pharmaceutical Industries Ltd., Cadila Healthcare Ltd. and Johnson & Johnson International, Inc. The companies are focusing on extensive research and developments activities to stay competitive in the market. Other competitive strategies include formation of alliances and partnerships.

Years considered for this report:

Historical Years: 2016 – 2019

Base Year: 2020

Estimated Year: 2021

Forecast Period: 2022 – 2026

Objective of the Study:

To analyze historical growth in market size of Global Bleeding Disorders Drugs Market from 2016 to 2020.

To estimate and forecast the market size of Global Bleeding Disorders Drugs Market from 2021 to 2026 and growth rate until 2026.

To classify and forecast Global Bleeding Disorders Drugs Market based on drug type, disease type, distribution channel, end user, and regional distribution.

To identify dominant region or segment in the Global Bleeding Disorders Drugs Market.

To identify drivers and challenges for Global Bleeding Disorders Drugs Market.

To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in Global Bleeding Disorders Drugs Market.

To identify and analyze the profiles of leading players operating in Global Bleeding Disorders Drugs Market.

To identify key sustainable strategies adopted by market players in Global Bleeding Disorders Drugs Market.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of manufacturers, suppliers, and service providers across the globe. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the manufactures which could not be identified due to the limitations of secondary research. TechSci Research analyzed the manufactures, distribution channels and presence of all major players across the globe.

TechSci Research calculated the market size of Global Bleeding Disorders Drugs Market using a bottom-up approach, wherein data for various end-user segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated them through analyzing historical data of these product types and applications for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

Bleeding disorders treatment drugs vendors, end users, service providers and other stakeholders

Distributors and suppliers of bleeding disorders treatment products and services and other stakeholders

Organizations, forums, and alliances related to bleeding disorders treatment

Market research and consulting firms

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as manufacturers, suppliers, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

Report Scope:

In this report, Global Bleeding Disorders Drugs Market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

Global Bleeding Disorders Drugs Market, By Drug Type:

Plasma-derived Coagulation Factor Concentrates

Recombinant Coagulation Factor Concentrates

Desmopressin

Antifibrinolytics

Fibrin Sealants

Others

Global Bleeding Disorders Drugs Market, By Disease Type:

Hemophilia A

Hemophilia B

Von Willebrand Disease

Others

Global Bleeding Disorders Drugs Market, By Distribution Channel:

Hospital Pharmacies

Retail Pharmacies

Online

Global Bleeding Disorders Drugs Market, By Gender

Male

Female

Global Bleeding Disorders Drugs Market, By End User:

Hospitals

Hemophilia Treatment Centers

Research Institutes

Others

Global Bleeding Disorders Drugs Market, By Region:

North America

APAC

Europe

South America

MEA

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in Global Bleeding Disorders Drugs Market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).
